Dear Fellow Shareholders:

We are pleased to present the Travel + Leisure Co. Proxy Statement and cordially invite you to our virtual 2024 Annual Meeting of Shareholders on Wednesday, May 15, 2024.

We intensely focused on organic execution and positioning the company for ongoing success in 2023. As consumers continued to prioritize vacations, our team delivered growth in key financial metrics during the year, led by robust performance in our core vacation ownership business under the Wyndham and Margaritaville brands. We also made the necessary decision to right-size our travel and membership business to better capitalize on future growth opportunities. As we look ahead, we believe our resilient business model, strong consumer value proposition, expanding platform and favorable secular leisure travel trends will continue to make Travel + Leisure Co. attractive for investors, consumers and potential partners alike.

We have great momentum in expanding our platform and fulfilling our multi-brand strategy, after executing two transactions in less than six months. The first was the acquisition of the rights to the Sports Illustrated vacation ownership business. It represents an opportunity to serve passionate consumers and deliver vacation ownership products in a sports-centric environment integrating nearly 70 years of legendary content from Sports Illustrated. The second was the addition of Accor to our vacation ownership brand portfolio. The Accor acquisition added 24 resorts, nearly 30,000 members, and finished inventory to our Asia-Pacific region and gives us the exclusive license to grow the Accor Vacation Club in certain regions globally. Both transactions further establish Travel + Leisure Co. as a trusted steward of world-class hospitality and lifestyle brands, which we expect will be a catalyst for incremental growth.

We remain focused on shareholder returns. We returned \$443 million to shareholders through dividends and share repurchases in 2023, demonstrating our strong free cash flow generation. Your board of directors also recently increased the company's dividend by 11% to \$0.50 per share for the first quarter of 2024. Since the spin-off of Wyndham Hotels & Resorts, Inc. in 2018, we have cumulatively returned over \$2.1 billion of capital to shareholders. We are confident in our ability to continue to generate significant free cash flow in the future.

We recognize that the company's success has been achieved through the hard work of our dedicated team of associates. We are proud that the company's reputation as an excellent employer and one of the world's most reputable and respected companies has been recognized by leading publications too. The company was recently ranked as One of the Best Companies to Work For by *U.S. News & World Report* and highlighted as one of the World's Most Admired Companies by *Fortune* for the second consecutive year.

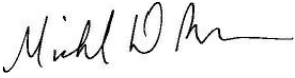

The Board of Directors and executive team alongside our more than 19,000 associates around the world are focused on making strong progress across our business as we put the world on vacation and deliver results for our shareholders. We hope you share our satisfaction with our 2023 performance and excitement about our opportunities in 2024 and beyond.

Your vote on the matters detailed in this year's proxy statement is very important and we ask for your support. Whether or not you plan to attend the virtual Annual Meeting of Shareholders, please cast your vote as soon as possible.

Sincerely,

PROPOSAL 1: ELECTION OF DIRECTORS

The Travel + Leisure Co. Board of Directors (Board) is comprised of a diverse, highly experienced and engaged group of individuals. The Board has nominated our nine current Directors for election at the Annual Meeting for a term expiring at the 2025 annual meeting of shareholders, consistent with the recommendation of the Corporate Governance Committee.

Each Director nominee has agreed to be named in this proxy statement and if elected to serve until such Director's successor is elected and qualified or until such Director's earlier resignation, retirement, disqualification or removal. Accordingly, we do not know of any reason why any nominee would be unable to serve as a Director. If any nominee is unable or unwilling for good cause to serve, the shares represented by all valid proxies will be voted for the election of such other person as the Board may nominate to the extent permitted by applicable law or rule.

The following table provides summary information about our Director nominees. Your Board recommends that you vote“FOR” the election of each of the nine nominees. Detailed biographical information about each Director nominee begins on page 5.

The Board also believes that it is essential that Directors represent diverse viewpoints, as the judgment and perspectives offered by diverse viewpoints improves the quality of decision-making and enhances the Company's business performance. Four of nine Directors, comprising 44% of the Board, are female and/or have ethnically diverse backgrounds, including three female Directors (Mss. Brady, Martinez and Post) and two Directors with ethnically diverse backgrounds (Mr. Herrera and Ms. Martinez).

Director Nomination Process

Role of Corporate Governance Committee. The Corporate Governance Committee is responsible for recommending the Director nominees for election to the Board. The Corporate Governance Committee considers the appropriate balance of experience, skills and characteristics required of the Board when considering potential candidates to serve on the Board.

The Corporate Governance Committee does not have a formal policy with respect to diversity; however, the Corporate Governance Committee focuses on issues of diversity, such as diversity of gender, race, ethnicity and national origin, education, professional experience and differences in viewpoints and skills. In considering candidates for the Board, the Corporate Governance Committee considers the entirety of each candidate's credentials in the context of these standards. For the nomination of continuing Directors for re-election, the Corporate Governance Committee also considers the individual's contributions to the Board.

All of our Directors bring to our Board a wealth of executive leadership experience derived from their service as senior executives of large organizations as well as board experience. Certain individual qualifications, experience and skills of our Directors that led the Board to conclude that each Director should serve as our Director are described below under "Director Biographies."

Identification and Evaluation Process. The process for identifying and evaluating new nominees to the Board is initiated by identifying a candidate who meets the criteria for selection as a nominee and has the specific qualities or skills being sought, based on input from members of the Board; and, when appropriate, a third-party search firm may be used, which would identify and recommend potential candidates for consideration. The Corporate Governance Committee and other members of the Board will evaluate these candidates by reviewing the candidates' biographical information and qualifications and checking the candidates' references. Qualified candidates will be interviewed by at least one member of the Corporate Governance Committee. Using the input from one or more interviews, other Board members and other information it obtains, the Corporate Governance Committee evaluates whether the candidate is qualified to serve as a Director and whether the Corporate Governance Committee should recommend to the Board that the Board nominate the candidate for election by the shareholders or to fill a vacancy or newly created position on the Board.

Shareholder Recommendations of Nominees. The Corporate Governance Committee will consider written recommendations from shareholders for nominees for Director. Recommendations should be submitted to the Corporate Governance Committee, c/o the Corporate Secretary, and include at least the following: name of the shareholder and evidence of the person's ownership of our common stock, number of shares owned and the length of time of ownership, name of the candidate, the candidate's resume or a listing of his or her qualifications to be a Director and the person's consent to be named as a Director if recommended by the Corporate Governance Committee and nominated by the Board. To evaluate nominees for Directors recommended by shareholders, the Corporate Governance Committee intends to use a substantially similar evaluation process as described above.

Shareholder Nominations and By-Law Procedures. Our By-Laws establish procedures pursuant to which a shareholder may nominate a person for election to the Board. Our By-Laws are available on the Investors page of our website at travelandleisureco.com/investors by clicking on the Governance menu followed by the Governance Documents link. To nominate a person for election to the Board, a shareholder must submit a notice containing all information required by our By-Laws regarding the Director nominee and the shareholder and any associated persons making the nomination, including name and address, number of shares owned, a description of any additional interests of such nominee or shareholder and certain representations regarding such nomination. Our By-Laws require that such notice be updated as necessary as of specified dates prior to the annual meeting. We may require any proposed nominee to furnish such other information as we may require to determine his or her eligibility to serve as a Director. Such notice must be accompanied by the proposed nominee's consent to being named as a nominee and to serve as a Director if elected.

To nominate a person for election to the Board at our 2025 annual meeting, written notice of a shareholder nomination must be delivered to our Corporate Secretary not earlier than January 15, 2025 and not later than February 14, 2025. However, if the date of the 2025 annual meeting is not within 30 days before or after May 15, 2025, then a shareholder's written notice will be timely if it is delivered by no later than the close of business on the 10th day following the day on which public disclosure of the date of the annual meeting is made or the notice of the date of the annual meeting was mailed, whichever occurs first. Our By-Laws require that any such notice be updated as necessary as of specified dates prior to the annual meeting. A shareholder may make nominations of persons for election to the Board at a special meeting if the shareholder delivers written notice to our Corporate Secretary not later than the close of business on the 10th day following the day on which public disclosure of the date such special meeting was made or notice of such special meeting was mailed, whichever occurs first; provided that, at a special meeting of shareholders, only such business may be conducted (including election of directors) as shall have been brought before the meeting under our notice of meeting. In addition to satisfying the requirements under our By-Laws with respect to advance notice of any nomination, any shareholder that intends to solicit proxies in support of director nominees other than the Company's Director nominees in accordance with Rule 14a-19 must postmark or transmit electronically notice to the Corporate Secretary no later than 60 calendar days prior to the anniversary of the previous year's annual meeting (no later than March 16, 2025 for the 2025 annual meeting of shareholders). Any such notice of intent to solicit proxies must comply with all the requirements of Rule 14a-19.

Voting Standard and Majority Vote Policy

Our Certificate of Incorporation and By-Laws provide for a plurality voting standard for the election of our Directors. Under a plurality voting standard the nominee for each Director position with the most votes is elected. Only votes cast "for" a nominee will be counted. Votes "withheld" and broker non-votes in the election of directors will not be counted as cast for such purpose and therefore will have no effect on the outcome of the election.

Under the Board's Corporate Governance Guidelines, any nominee for Director in an uncontested election (such as this one where the number of nominees does not exceed the number of Directors to be elected) who receives a greater number of votes withheld from his or her election than votes for such election shall promptly tender his or her resignation following certification of the shareholder vote. The Corporate Governance Committee will promptly consider the tendered resignation and will recommend to the Board whether to accept the tendered resignation or to take some other action, such as rejecting the tendered resignation and addressing the apparent underlying causes of the withheld votes. In making this recommendation the Corporate Governance Committee will consider all factors deemed relevant by its members.

The Board will act on the Corporate Governance Committee's recommendation no later than at its first regularly scheduled meeting following certification of the shareholder vote but in any case no later than 120 days following the certification of the shareholder vote. In considering the Corporate Governance Committee's recommendation, the Board will review the factors considered by the Corporate Governance Committee and such additional information and factors the Board believes to be relevant. We will promptly publicly disclose the Board's decision and process in a periodic or current report filed with the SEC. Any Director who tenders his or her resignation under this process will not participate in the Corporate Governance Committee recommendation or Board consideration regarding whether or not to accept the tendered resignation. However, such Director shall remain active and engaged in all other Committee and Board activities, deliberations and decisions during this process.

ENVIRONMENTAL AND SOCIAL RESPONSIBILITY

The Company's commitment to strong environmental, social responsibility and governance (ESG) principles begins with the Board. Responsibilities for certain ESG matters are incorporated into the charters of the Audit, Compensation and Corporate Governance Committees of the Board, and the full Board receives updates on ESG matters from management and Committee Chairs. We have also integrated the priorities of environmental sustainability, inclusion and diversity, human rights, ethics, philanthropy and community support directly into our operations, while striving to deliver strong performance across our businesses.

Where You Can Find Additional ESG Information

Detailed information about our governance practices is included below under "Governance." For additional information about our environmental and social responsibility activities and initiatives, see Part I Item 1—Business, Environmental, Social and Governance of our Annual Report filed with the SEC, which can be found on our website at investor.travelandleisureco.com/sec-filings/annual-reports, and visit our website at investor.travelandleisureco.com/esg. Information from our website is not incorporated by reference into this proxy statement.

GOVERNANCE

Board of Directors

The Board is the ultimate decision-making body of the Company, except for those matters reserved for shareholders by law or pursuant to the Company's governance instruments and those matters delegated by the Board to management. The Board is committed to exercising sound corporate governance principles and has adopted Corporate Governance Guidelines that, along with the charters of the Committees of the Board, Director Independence Criteria, Code of Conduct for associates, and Code of Business Conduct and Ethics for Directors, provide the framework for our governance. Each document is available on the Investors page of our website at travelandleisureco.com/investors by clicking on the Governance menu followed by the Governance Documents link. The governance rules for companies listed on the New York Stock Exchange and those contained in the Securities and Exchange Commission (SEC) rules and regulations are reflected in the guidelines. The Board reviews these principles and other aspects of governance periodically.

Board Leadership Structure and Lead Director

While the Board has not mandated a particular leadership structure, historically, the positions of Chairman of the Board and CEO were held by the same person. In 2018, as a result of Mr. Holmes' discussions with the Board about resigning as our CEO in connection with the spin-off of Wyndham Hotels and as part of its ongoing review of the Board leadership structure and succession planning process, the Board determined that the positions of Chairman and CEO should be held by separate individuals. In connection with the spin-off, effective as of May 31, 2018, the Board elected Mr. Holmes, who had served as the Chairman and CEO of the Company since July 2006, to the position of Non-Executive Chairman of the Board. At the same time, the Board also appointed Mr. Brown, our new President and CEO, as a member of our Board.

In his role, Mr. Holmes provides leadership to the Board by, among other things, working with the CEO, the Lead Director, and the Corporate Secretary to set Board calendars, determine agendas for Board meetings, ensure proper flow of information to Board members, facilitate effective operation of the Board and its Committees, help promote Board succession planning and the orientation of new Directors, address issues of Director performance, assist in consideration and Board adoption of the Company's long-term and annual operating plans, and help promote senior management succession planning. Mr. Holmes' experience as our former CEO and his knowledge and familiarity with our business and industry bring unique and valuable perspective to the Board. In addition, Mr. Brown's service as a Director promotes strategy development and execution and facilitates information flow between management and the Board, which is also essential to effective governance.

The Board also recognizes the importance of having independent Board leadership and selected James E. Buckman, an independent Director who serves as a member of the Executive Committee and Compensation Committee, to serve as the Board's Lead Director. The Lead Director serves as a key advisor to our Chairman, chairs executive sessions of independent Directors and provides feedback to the Chairman, chairs meetings of the Board in the absence of the Chairman, and reviews in advance, and as appropriate, consults with the Chairman regarding, the agendas for all Board and Committee meetings.

Seven of our nine current Directors are independent, and the Audit, Compensation and Corporate Governance Committees are composed solely of independent Directors. Consequently, the independent Directors directly oversee such critical items as the Company's financial statements, executive compensation, the selection and evaluation of Directors and the development and implementation of our corporate governance programs. Our independent Directors bring experience, oversight and expertise from outside our Company and industry, which balances the Company-specific experience and expertise that our Non-Executive Chairman and our CEO bring to the Board.

The Board will continue to review our Board leadership structure as part of the succession planning process. We believe that our leadership structure, in which the roles of Chairman and CEO are held by separate individuals, together with an experienced and engaged Lead Director and independent key Committees, is the optimal structure for our Company and our shareholders at this time.

Oversight of Risk Management

We face a broad array of risks, including risks relating to our finances, business operations and strategy, human capital matters, legal, regulatory and compliance matters, and reputational exposure. Our CEO and other members of senior management are primarily responsible for day-to-day risk management analysis and mitigation and report to the full Board or the relevant Committee regarding risk management. The Board provides oversight and seeks to ensure that risks undertaken by the

Company are consistent with a level of risk that is appropriate and aligned with the achievement of our business objectives and strategies. Committees of the Board consider risks within their principal areas of responsibility and update the Board on significant risk matters. Aligning Committees with risk oversight in their individualized areas of Committee focus and attention allows the Board to provide specific attention to and oversight of key risk areas.

Each Committee is responsible for providing oversight with respect to the management of certain risks and the entire Board is regularly informed about our risks through Committee reports and management presentations. The Audit Committee provides oversight on our programs for risk assessment and risk management, including with respect to financial accounting and reporting, internal audit, information technology, cybersecurity and ethics and compliance. The Audit Committee also receives quarterly updates from management regarding our global risk assessment (GRA) program, which is designed to identify the top risks applicable to the Company and document risk mitigation plans and initiatives by management. With respect to cybersecurity risk oversight, our Audit Committee receives quarterly updates from the appropriate managers on the primary cybersecurity risks facing the Company and the measures the Company is taking to mitigate such risks. In addition to such periodic reports, our Audit Committee receives updates from management regarding any significant changes to the Company's cybersecurity risk profile or significant newly identified risks. Our Chief Ethics and Compliance Officer, who is a direct report to our General Counsel, also provides quarterly reports to the Audit Committee with regard to our ethics and compliance program. The Compensation Committee provides oversight on our assessment and management of risks relating to our executive compensation and management succession planning. The Corporate Governance Committee provides oversight on our management of risks associated with the independence of the Board and potential conflicts of interest. The Corporate Governance Committee also periodically reviews matters of corporate social responsibility and sustainability performance, including potential long- and short-term trends and impacts of environmental, social, and governance issues.

Our leadership structure, with Mr. Holmes serving as our Non-Executive Chairman and with Mr. Brown serving as a Director, also enhances the Board's effectiveness in risk oversight due to the extensive knowledge of Mr. Holmes and Mr. Brown with respect to our business and operations, facilitating the Board's oversight of key risks. We believe this division of responsibility and leadership structure is the most effective approach for addressing our risk management.

Director Independence

Travel + Leisure Co.'s Corporate Governance Guidelines and Director Independence Criteria define our standards for director independence and reflect applicable NYSE and SEC requirements. All members of the Audit Committee and the Compensation Committee must also meet heightened independence standards under applicable NYSE and SEC rules.

Our Board is required under NYSE rules to affirmatively determine that each independent Director has no material relationship with Travel + Leisure Co., impacting his or her independence.

In accordance with these standards and criteria, the Board undertook its annual review of the independence of its Directors. During this review the Board considered whether there are any relationships or related party transactions between each Director, any member of his or her immediate family or other affiliated entities and us and our subsidiaries and affiliates. The purpose of this review was to determine whether any such relationships or transactions existed that were inconsistent with a determination that the Director is independent.

The Board follows a number of procedures to review related party transactions. We maintain a written policy governing related party transactions that requires Audit Committee pre-approval of related party transactions exceeding \$120,000. Each Board member answers a questionnaire designed to disclose conflicts and related party transactions. We also review our internal records for related party transactions. Based on a review of these standards and materials, none of our independent Directors had or has any relationship with us other than as a Director within the meaning of our Director Independence Criteria and applicable regulatory and listing standards.

As a result of its review the Board affirmatively determined that the following Directors are independent of us and our management as required by the NYSE listing standards and the Director Independence Criteria: Louise F. Brady, James E. Buckman, George Herrera, Lucinda C. Martinez, Denny Marie Post, Ronald L. Rickles and Michael H. Wargotz. All members of the Audit, Compensation and Corporate Governance Committees are independent Directors within the meaning of our Director Independence Criteria and applicable regulatory and listing standards.

Executive Sessions of Non-Management Directors and Independent Directors

The non-management members of the Board meet regularly without any members of management present. In addition, at least once a year, the independent Directors meet in a private session that excludes management and non-independent Directors. The Lead Director chairs these sessions.

Meeting Attendance

Directors are expected to attend all Board meetings and meetings of the Committees on which they serve, as well as our Annual Meeting of Shareholders, absent exceptional cause. Directors fulfill their responsibilities not only by attending Board and Committee meetings but also through communication with the Non-Executive Chairman, Lead Director, CEO and other members of management relative to matters of interest and concern to Travel + Leisure Co. throughout the year.

The Board held four meetings during 2023. Each Director attended our 2023 annual meeting of shareholders, and each Director attended all of the Board meetings and at least 93% of the meetings of the committees of the Board on which the Director served during 2023.

All directors are expected to attend the 2024 Annual Meeting.

Communications with the Board and Directors

Shareholders and other parties interested in communicating directly with the Board, an individual non-management or independent Director or the non-management or independent Directors as a group may do so by writing our Corporate Secretary at our principal executive offices at Travel + Leisure Co., 6277 Sea Harbor Drive, Orlando, Florida 32821. The Corporate Secretary will forward the correspondence only to the intended recipients. However, prior to forwarding any correspondence, the Corporate Secretary will review it and in his discretion will not forward correspondence deemed to be of a commercial nature or otherwise not appropriate for review by the Directors.

Compensation of Directors

Highlights of Our Director Compensation Program. The following are highlights of our compensation program for non-management Directors:

- On average, 64% of our Directors' total annual compensation for 2023 was equity-based, aligning our Directors' interests with the long-term interests of our shareholders.
- Our Directors have the opportunity to defer all of their cash- and equity-based compensation under our Non-Employee Directors Deferred Compensation Plan. Amounts deferred under the plan are credited in the form of deferred stock units (DSUs) which are payable solely in shares of our common stock. DSUs are not paid out until the Director's retirement or termination from service on the Board, thereby further aligning our Directors' interests with the long-term interests of our shareholders. For 2023, our Directors elected to defer on average 48% of their total annual compensation.
- Consistent with Travel + Leisure Co.'s philanthropic commitment, our non-management Directors are provided a three-for-one Company match for charitable contributions. We will match Director contributions \$3 for every \$1 contributed by the Director up to an aggregate maximum Company contribution of \$75,000 per year. On average, 9% of our Directors' total annual compensation for 2023 was attributable to this charitable match.
- We maintain robust stock ownership guidelines which require our non-management Directors to own stock equal to the greater of 5x the cash portion of the annual retainer or 2.5x their total retainer value without regard to Committee fees. As of December 31, 2023, each of our Directors owned at least 12.6x the cash portion of their annual retainer and 6.3x their total retainer value, except for Ms. Martinez who joined our Board in November 2021 and has until November 2026 to achieve compliance.
- Our 2006 Equity and Incentive Plan, as amended and restated, contains a shareholder-approved limit on the value of equity awards that can be granted to each non-management Director annually.
- We do not pay any per-meeting fees.
- We do not provide retirement benefits to our non-management Directors.
- Our independent compensation consultant reviews our Director compensation program annually relative to our peer group and best practices.

Overview. Non-management Directors receive compensation for Board service designed to compensate them for their Board responsibilities and align their interests with the interests of shareholders. A management Director receives no additional compensation for Board service.

Directors of a publicly traded company have substantial responsibilities and time commitments, and with ongoing changes in corporate governance standards, highly qualified and experienced directors are in high demand. Accordingly, we seek to provide competitive and appropriate economic incentives for our Directors who play a critical and active role in overseeing the management of our Company and guiding our business strategy. Our Board has a total of nine members, seven of whom are independent. All of our independent Directors serve on at least one Committee. Our Director compensation program is designed to reasonably compensate our Directors for their qualifications and experience, continued performance, dedication, increased responsibilities and time commitment.

Annual Review of Director Compensation. In November 2022, our independent compensation consultant, Aon, provided an independent review of our non-management Director compensation program. As part of this review, Aon assessed the elements of our program, including annual board retainers in cash and equity, fees for chairman and Committee service, and prevalence of features such as non-executive chairman and lead director pay and other compensation in the form of perquisites and benefits, and provided peer group data (using the peer group listed below in "Compensation Review and Competitive Analysis - Peer Group Composition for 2023") that presented annual retainer fees, Committee service pay, and annual equity grant value at the 25th, 50th and 75th percentile. Aon also assessed the prevalence of governance policies such as stock ownership guidelines and stock hedging/pledging. The Governance Committee reviewed the peer group data prepared by Aon and determined that our Directors' total direct compensation was generally aligned with the philosophy of targeting the top quartile of the peer group. As a result of this review, our 2023 Director compensation program remained consistent with our 2022 program.

Annual Retainer Fees. The following table describes 2023 annual retainer and Committee chair and membership fees for non-management Directors for the full-year. Our Directors do not receive additional fees for attending Board or Committee meetings.

	Cash-Based	Stock-Based	Total
Non-Executive Chairman	\$ 160,000	\$ 160,000	\$ 320,000
Lead Director	\$ 132,500	\$ 132,500	\$ 265,000
Director	\$ 105,000	\$ 105,000	\$ 210,000
Audit Committee chair	\$ 22,500	\$ 22,500	\$ 45,000
Audit Committee member	\$ 12,500	\$ 12,500	\$ 25,000
Compensation Committee chair	\$ 17,500	\$ 17,500	\$ 35,000
Compensation Committee member	\$ 10,000	\$ 10,000	\$ 20,000
Corporate Governance Committee chair	\$ 15,000	\$ 15,000	\$ 30,000
Corporate Governance Committee member	\$ 8,750	\$ 8,750	\$ 17,500
Executive Committee member	\$ 10,000	\$ 10,000	\$ 20,000

The annual Director retainer and Committee chair and membership fees are paid on a quarterly basis 50% in cash and 50% in Travel + Leisure Co. stock. The requirement for Directors to receive at least 50% of their fees in our equity further aligns their interests with those of our shareholders. For 2023, the number of shares of stock issued was based on our stock price on the quarterly determination date. Beginning for 2024, such awards are made on an annual basis rather than a quarterly basis and the number of shares of stock issued is based on our stock price on the annual determination date. Directors may elect to receive the stock-based portion of their fees in the form of common stock or deferred stock units (DSUs). Directors may also elect to defer any cash-based compensation or time-vesting restricted stock units (RSUs) into DSUs. A DSU entitles the Director to receive one share of common stock following the Director's retirement or termination of service from the Board for any reason and is credited with dividend equivalents during the deferral period. The Director may not sell or receive value from any DSU prior to retirement or termination of service.

Director Equity Awards. In addition to the annual retainer fees, to further align our Directors' interests with those of our shareholders, each non-management Director is granted an annual equity award typically in the form of RSUs. On March 7, 2023, each of our non-management Directors received a \$125,000 annual equity grant of time-vesting RSUs, which vest ratably over a four-year period. Beginning for 2024, the \$125,000 annual director equity awards vest over a one-year period. RSUs are credited with dividend equivalents subject to the same vesting restrictions as the underlying units.

Other Compensation. Consistent with Travel + Leisure Co.'s philanthropic commitment, we will match a non-management Director's qualifying charitable contributions \$3 for every \$1 contributed by the Director up to an aggregate maximum Company contribution of \$75,000 per year. Six of our Directors chose to make qualifying charitable contributions in 2023, which we matched three times the amount of their personal contribution. This benefit to our non-management Directors reflects our core commitment to charitable giving. We also maintain a policy to award our non-management Directors up to a maximum of 500,000 Wyndham Rewards Points annually. These Wyndham Rewards Points have an approximate value of \$4,133 and may be redeemed for numerous rewards options including stays at Wyndham properties. This benefit provides our Directors with an opportunity to get ongoing, first-hand exposure to our properties and operations, furthering their understanding and evaluation of our businesses.

Holmes Letter Agreement. In connection with the spin-off of Wyndham Hotels, effective as of May 31, 2018, the Board elected Stephen P. Holmes, who had served as the Chairman and CEO of the Company since July 2006, to the position of Non-Executive Chairman of the Board. In connection with his election as Non-Executive Chairman of the Board, on June 1, 2018, the Company entered into a letter agreement with Mr. Holmes (Holmes Letter Agreement), which provides him with an annual retainer of \$320,000 (with \$160,000 payable in the form of cash and \$160,000 payable in the form of Travel + Leisure Co. common stock) as further described above. In addition, the Company agreed to pay Mr. Holmes the following amounts to assist him in the course of performing his duties and responsibilities to the Company: \$18,750 per year toward his costs incurred in connection with retaining an administrative assistant and \$12,500 per year toward his costs incurred in connection with office space. In addition, the Company also agreed to reimburse Mr. Holmes while he remains a Board member for 50% of the cost of his annual executive health and wellness physical (\$5,500 in 2023).

Director Stock Ownership Guidelines. The Corporate Governance Guidelines require each non-management Director to comply with Travel + Leisure Co.'s Non-Management Director Stock Ownership Guidelines. These guidelines require each non-management Director to beneficially own an amount of our stock equal to the greater of a multiple of at least 5x the cash portion of the annual retainer or 2.5x the total retainer value without regard to Board Committee fees. Directors have a period of five years after joining the Board to achieve compliance with this ownership requirement. DSUs and RSUs credited to a Director count towards satisfaction of the guidelines. As of December 31, 2023, all of our non-management Directors exceeded these stock ownership requirements, except for Ms. Martinez who joined our Board in November 2021 and has until November 2026 to achieve compliance.

Related Party Transactions

The Board has adopted a written policy regarding the review of certain related party transactions (the "Related Person Transactions Policy"). Under the Related Person Transactions Policy, which is administered by our Audit Committee, Directors and executive officers must report any related person transactions to the Office of General Counsel and furnish details regarding the terms and circumstances of each such transaction in advance of entering into or amending or modifying such transaction. Pursuant to the Related Person Transactions Policy, the material facts respecting any such related person transaction and the related person's interest in such transaction must be reviewed and pre-approved (or not approved) by the Audit Committee. No Director of the Company may participate in any approval of any related person transaction with respect to which he or she is a related person.

For purposes of the Related Person Transactions Policy, a "related person transaction" includes, subject to certain exceptions, any transaction, arrangement or relationship or series of similar transactions, arrangements or relationships in which (i) the Company or any of its subsidiaries is or will be a participant, (ii) any related person has or will have a direct or indirect material interest, and (iii) such transaction would be required to be disclosed under Item 404 of Regulation S-K under the Exchange Act. The policy defines a "related person" to include: any of our Directors, Director nominees or executive officers; a known holder of more than 5% of our common stock; immediate family members of any of the foregoing; or any firm, corporation or other entity in which any of the foregoing persons is an executive officer, partner, principal or similar position, or in which such person has a material ownership or financial interest.

We have included disclosure below regarding certain ongoing transactions between the Company and a limited liability company affiliated with Mr. Holmes (Holmes LLC) since the beginning of the prior fiscal year.

In May 2018, the Company entered into an Aircraft Timesharing Agreement with Holmes LLC pursuant to which Holmes LLC granted us the right to use the aircraft that it owns on a timesharing basis in accordance with, and subject to the reimbursement of certain operating costs and expenses in accordance with, the federal aviation regulations. We paid operating costs and expenses under this timesharing agreement of \$107,061 in 2023. Holmes LLC is solely responsible for the physical and technical operation of the aircraft, aircraft maintenance and the cost of maintaining aircraft liability insurance, as provided in the federal aviation regulations.

Key Compensation Actions for 2023

Aligned with our Total Compensation Strategy, the Committee took several actions with respect to our executive compensation program to continue to support a high performance environment focused on strong execution supporting our growth strategy. Our key 2023 compensation actions are highlighted below and also described in further detail in this Compensation Discussion and Analysis.

- **2023 Annual Incentive Plan:** The 2023 Annual Incentive Plan design is consistent with the 2022 design with corporate and business unit adjusted EBITDA targets (weighted 90%) and a strategic goal component (weighted 10%) for the CEO and senior leadership team reporting directly to the CEO. Strategic goal components approved by the Committee for the named executive officers are based on role-specific strategic priorities for each executive. To incentivize high performance and further align with market practice based on a competitive market assessment shared by Aon, our independent compensation consultant, the Committee determined to extend the performance/payout range. Beginning with the 2023 Annual Incentive Plan, the maximum payout opportunity has been increased from 150% of target to 200% of target annual incentive award for higher premium performance levels.
- **2023 Long-Term Incentive Plan Awards:** For 2023, the Committee approved increased LTIP awards which are more heavily weighted toward performance for our CEO and his leadership team. The 2023 target LTIP Award for our CEO consists of 55% PSUs and 45% time-vesting RSUs. The other named executive officer awards consist of on average approximately 45% PSUs and 55% time-vesting RSUs. These PSUs are to be earned upon achievement of a three-year cumulative adjusted EPS financial metric for the performance period 2023 to 2025.
- **2023 CEO At-Risk Pay Mix:** On March 7, 2023, the Committee approved an annual target total direct compensation package for our CEO consisting of the following ongoing elements: base salary (10%), target annual cash incentive award (17%) and target LTIP award (73%). His annual target LTIP awards include a mix of 55% PSUs and 45% time-vesting RSUs. Of our CEO's target annual total direct compensation for 2023, 90% is variable and at-risk in the form of annual cash incentive and LTIP awards and 57% is contingent upon performance metrics in the form of annual cash incentive and PSUs.
- **Adoption of Clawback Policy:** On August 8, 2023 the Committee approved the adoption of the Travel + Leisure Co. Incentive Compensation Recovery Policy effective October 2, 2023. Under the policy, generally speaking, the Company is required to recover erroneously awarded incentive-based compensation, as defined in the policy, in the event that the Company is required to prepare an accounting restatement due to material noncompliance with any financial reporting requirement under the securities laws. The policy covers each individual who is or was designated as an "officer" of the Company for purposes of Section 16 under the Exchange Act whether or not such covered executive is serving at the time the excess compensation is required to be repaid to the Company. The policy applies without regard to whether any misconduct occurred or whether the covered executive had any individual knowledge or responsibility related to the erroneous financial statements necessitating the relevant accounting restatement. If triggered, the policy requires the recovery of any excess incentive-based compensation received by covered executive officers during the three fiscal years preceding the date of the accounting restatement. The policy applies to material accounting errors that require a restatement of prior year financial results (commonly known as "Big R" restatements) as well as to errors that are corrected in current year results (commonly known as "little R" restatements).

Shareholder Outreach for 2023 Executive Compensation Program: Consistent with our ongoing practice, during 2022, members of management reached out to our 15 largest shareholders, representing 50% of our total outstanding shares. At our 2023 annual meeting, our executive compensation program again received a strong level of support with 91% of votes cast for our program. See "Shareholder Outreach" below in this Compensation Discussion and Analysis for information regarding our outreach efforts in 2023.

Annual NEO Target Total Direct Compensation for 2023. Upon review of its compensation consultant's competitive market analysis and recommendations, our Committee adopted the following 2023 total direct compensation packages for our named executive officers based on their roles, levels of responsibility and their positions as executive officers of a public company of our size. Our compensation program is predominately variable and at-risk in the form of annual cash incentive and long-term incentive awards. For our CEO, 90% of target total direct compensation is variable and at-risk, and on average for our other named executive officers 86% is variable and at-risk.

Executive	Base Salary	Target Annual Cash Incentive		Long-Term Incentive Plans (LTIP) Target Fair Value	Target Total Direct
Michael Brown	\$1,310,500	175%	\$2,293,375	\$9,800,000	\$13,403,875
Michael Hug	\$649,549	85%	\$552,117	\$3,600,000	\$4,801,666
Geoff Richards	\$610,428	85%	\$518,864	\$3,500,000	\$4,629,292
Jeffrey Myers	\$573,735	100%	\$573,735	\$3,500,000	\$4,647,470
Olivier Chavy	\$649,549	85%	\$552,117	\$2,600,000	\$3,801,666

As Chief Sales and Marketing Officer, Mr. Myers' Target Annual Cash Incentive is based 50% on our annual incentive compensation program for management and 50% on our sales and marketing incentive compensation plan.

Our Executive Compensation Program Aligns with Shareholder Interests. We engage in the following practices to ensure that our executive compensation program aligns with our shareholders' interests.

- Our annual incentive compensation program requires achievement of rigorous financial performance metrics designed to incentivize high-performance and achievement of short-term financial goals and thus creates value for our shareholders.
- Equity awards granted to our named executive officers under our long-term incentive plan are designed to align their interests with our shareholders' interests. Regular annual equity awards constitute, on average, approximately 74% of their annual target total direct compensation and vest over multi-year periods.
- Our incentive compensation program includes a performance-based equity incentive award, the vesting of which is contingent upon achievement of performance goals over a three-year period, incentivizing medium-term high performance and value growth for our shareholders.
- Our CEO receives no tax gross-ups on perquisites.
- We have policies prohibiting our Directors and senior executives from engaging in any hedging transactions in our equity securities and from pledging, or using as collateral, our securities to secure personal loans or other obligations, including holding shares in margin accounts.
- Our named executive officers do not have the right to receive cash severance based solely upon change-in-control. Severance agreements with respect to cash severance payments are double trigger following the occurrence of a change-in-control.
- None of our executive officers is entitled to any tax gross-up in connection with severance payments upon termination of employment.
- We continue our shareholder outreach program to seek feedback on our governance and executive compensation practices.

Total Compensation Strategy

Our Total Compensation Strategy is designed to achieve the following objectives:

- Attract, retain and motivate high-performing senior management talent. We believe that attracting and retaining high-performing senior managers is integral to our ongoing success. Our named executive officers possess extensive experience in our businesses and the hospitality industry segments in which we compete and demonstrate the exceptional leadership skills and commitment to excellence that we believe are critical to our Company. Accordingly, our Total Compensation Strategy is designed in part to promote a long-term commitment from our named executive officers.
- Provide our executives with compensation that is consistent and competitive with compensation provided by comparable hospitality, service and leisure companies. As described below, the Committee reviews benchmark data from our peer group as well as general industry compensation reference information. The Committee does not view this benchmark as a rigid standard. We also provide our named executive officers with welfare and retirement benefits which are reviewed on a Company-wide basis.
- Support a high-performance environment by linking compensation with performance. We focus on deploying capital for the highest appropriate returns. Ultimately, our business objective is to grow our business while optimizing cash

flow and adjusted EBITDA. Consistent with these goals, we believe a significant portion of our executive compensation should be contingent on actual results. Accordingly, compensation levels are strongly influenced by corporate, business unit and individual performance.

- Support a long-term focus for our executives that aligns with shareholder interests. Long-term incentive compensation is intended to align the interests of our named executive officers with those of our shareholders as well as support our goal of retaining key leaders.

Compensation Committee Matters

Our Compensation Committee. The Committee is responsible for providing oversight on executive compensation policies and programs consistent with corporate objectives and shareholder interests. The Committee operates under a written charter adopted by the Board and reviews the charter on an annual basis. The Committee's membership is determined by the Board and is composed entirely of independent Directors. The Committee Chair reports at our Board meetings on Committee actions and recommendations.

Executive Compensation Consultant. Aon's Human Capital Solutions practice, a division of Aon plc (Aon), was retained by the Committee as a third-party consultant to provide independent advice, research and evaluation related to executive compensation and was paid \$193,400 for its services during 2023. In this capacity, the Committee utilizes reports and analyses prepared by Aon. Aon was retained to provide the Committee with competitive market pay analyses including compensation measurement services, peer group proxy data studies and market trends.

Travel + Leisure Co. has historically engaged affiliates of Aon for insurance brokerage and actuarial services as well as compensation survey subscriptions. In this capacity, management engaged Aon, without Board involvement, to provide insurance brokerage and actuarial services and compensation survey subscriptions for the Company during 2023. We paid approximately \$201,625 to Aon Risk Services, Inc. for these surety services during 2023 (offset in part by commissions collected by Aon Risk Services, Inc. from insurance carriers for placing Travel + Leisure Co. policies) and approximately \$23,000 to Aon Human Capital Solutions for compensation survey subscriptions.

Aon has policies and procedures in place designed to prevent conflicts of interest and safeguard the independence of its executive compensation consulting advice. These policies and procedures include segregation of executive compensation services in a separate business unit with performance results of that unit measured solely based on the executive compensation services, clearly defined engagements with compensation committees separate from any other services provided, management of multi-service client relationships by separate account executives, no incentives provided for cross-selling of services and no more favorable terms offered to companies due to the retention of Aon Risk Services, Inc. for additional services. On an annual basis, the Committee reviews the independence of Aon in accordance with NYSE requirements and considered this relationship as part of its review. Based on its review, the Committee concluded that no conflict of interest was raised by the services provided by Aon Risk Services, Inc. and determined that the executive compensation advice received from Aon is objective and independent.

Management's Role. Our management plays a significant role in our executive compensation process including evaluating executive performance and recommending base salary increases, performance factors for annual incentive compensation and long-term incentive compensation for the named executive officers other than our CEO. Our CEO and other members of management work with the Committee to establish the agenda for Committee meetings and management prepares and distributes meeting information to Committee members. Our CEO also participates in Committee meetings at the Committee's request to provide background information regarding our strategic objectives, his evaluation of the performance of the senior executives and compensation recommendations for senior executives other than himself. Our CEO is not involved in setting his own compensation, which is the exclusive responsibility of the Committee.

While the Committee reviews management's recommendations, the Committee retains discretion over all elements and levels of the named executive officers' compensation. The Committee generally bases its decisions on a combination of management's recommendations with respect to executive compensation, other than for our CEO, the Committee's evaluation of named executive officer, including CEO, performance and the external market data provided by our management and independent compensation consultant.

Committee Consideration of Say-on-Pay Vote. We currently hold an advisory vote on the compensation of our named executive officers (Say-on-Pay Vote) on an annual basis in accordance with the preference expressed by our shareholders at our 2023 annual meeting regarding the frequency of the Say-on-Pay Vote.

We maintain a shareholder outreach program to seek shareholder feedback on our governance and executive compensation practices. At our 2023 annual meeting, 91% of the shares voted on our Say-on-Pay Vote were in support of the compensation of our named executive officers as described in the 2023 proxy statement. See "Shareholder Outreach" below in this Compensation Discussion and Analysis for additional information regarding our outreach efforts.

Annual Evaluation and Compensation Risk Assessment. An important aspect of the Committee's work relates to the annual determination of compensation for our executive officers. The Committee meets each year to review the performance of the executive officers and review, consider and approve the level and mix of base salaries, annual incentive compensation, grants of long-term incentive compensation and perquisites.

As part of its annual total compensation program review, the Committee considers the potential for any material risks arising from or relating to our compensation programs. The Committee believes that our compensation programs do not encourage excessive risk-taking by our executives or employees and are not reasonably likely to have a material adverse effect on Travel + Leisure Co. The following aspects of our compensation programs encourage the management of our business in a prudent manner:

- The Committee reviews and compares executive compensation against our peer group to confirm that compensation is within an acceptable range relative to the external market.
- Our performance-based compensation is in large part keyed to our earnings and other key financial metrics, aligning interests of shareholders and management, and designed to improve our core operating results as opposed to high risk strategies.
- Our annual incentive compensation opportunities and PSUs are capped at a specified maximum as a countermeasure to excessive risk-taking.
- Our commission-based sales programs are monitored by management for compliance with law and internal policies.

Compensation Review and Competitive Analysis

Management and the Committee believe that information regarding compensation practices at other companies is useful in evaluating the compensation of our named executive officers. Management and the Committee recognize that our compensation practices must be competitive in the market to attract and retain high-performing senior managers. The Committee uses competitive compensation data from the annual total compensation study of peer companies to inform its decisions about overall compensation opportunities and specific compensation elements. Additionally, the Committee uses multiple reference points when establishing targeted compensation levels. The Committee does not benchmark specific compensation elements or total compensation to any specific percentile relative to the peer companies or the broader U.S. market. Instead, the Committee applies judgment and discretion in establishing targeted pay levels, taking into account not only competitive market data, but also factors such as Company, business and individual performance, scope of responsibility, critical needs and skill sets, leadership potential and succession planning.

Annually, the Compensation Committee reviews total compensation market data provided by Aon. The Committee reviews and approves the peer group used for comparisons prior to commencement of the pay study. The following peer group development criteria were used to develop competitive market values to assist with fiscal year 2023 pay decisions:

- Industry: Similar to Travel + Leisure Co. (e.g., vacation ownership, time share, hospitality services, resort operations);
- Company size: Approximately 0.33x to 3x Travel & Leisure's annual revenues, with a secondary focus on market capitalization;
- Peers: Companies using Travel + Leisure Co. in their compensation peer group;
- Peers of peers: Companies used in the peer groups of potential peer companies; and
- Competitors: Companies that compete with Travel + Leisure Co. for business and management talent.

Peer Group Composition for 2024. In August 2023, the Committee reviewed our peer group composition. As a result of this review and the recommendation of our compensation consultant, the Committee determined to make the following change to our peer group effective for 2024: Live Nation Entertainment was removed for reasons related to size.

Peer Review. Our compensation consultant's review of the 2023 peer group compensation included the following compensation elements using the most recently filed proxy statements for each peer company: base salary, annual incentive compensation, long-term incentive compensation, total cash compensation and total compensation. Peer data was supplemented with general industry data also provided by our compensation consultant.

Consistent with our Total Compensation Strategy, we broadly target total compensation at competitive levels versus the peer group. Our compensation consultant advised management and the Committee that our named executive officer compensation packages are competitive with our peer group and the elements of compensation we provide our named executive officers are consistent with the compensation elements provided by our peer group companies.

This comparative review is used only as a broad competitive reference point. The Committee does not employ a rigid benchmarking standard because the Committee does not believe that categorical guidelines or formulae are appropriate for determining the mix or levels of compensation for our named executive officers. The Committee views this comparative review as one factor in making compensation decisions for our named executive officers as it does not account for other factors such as challenges we face as a company, individual past and expected future performance, leadership ability, recruiting and retention needs, succession planning, experience or scope of responsibility.

Base Salary

Consistent with our Total Compensation Strategy, we provide base salaries designed to attract and retain our named executive officers and provide them with a base level of income. The Committee approved the following base salaries for 2023 based on a review of competitive market data from Aon's 2022 executive compensation study. Base salary increases were consistent with the broader employee population.

Executive	Base Salary effective February 26, 2022	Base Salary effective February 25, 2023	Percent of Base Salary Increase
Michael D. Brown	\$1,260,000	\$1,310,500	4.0%
Michael A. Hug	\$624,566	\$649,549	4.0%
Geoff Richards	\$586,950	\$610,428	4.0%
Jeffrey Myers	\$551,668	\$573,735	4.0%
Olivier Chavy	\$624,566	\$649,549	4.0%

Annual Incentive Compensation

Consistent with our Total Compensation Strategy, we provide cash-based annual incentive compensation designed to create incentives for the named executive officers to drive our short-term financial and operating performance and thus create value for our shareholders.

On an annual basis, in the first quarter, management has typically recommended and the Committee has approved a target award, generally expressed as a percentage of each executive's base salary, that includes a combination of factors to determine potential annual incentive compensation for our named executive officers, including Company (corporate) and/or business unit Earnings Before Interest Taxes Depreciation and Amortization (EBITDA), as adjusted, a standard measure of our profitability. An executive's annual incentive compensation varies and may be higher or lower than target annual incentive compensation depending on corporate and/or business unit performance and achievement against additional factors. The minimum payout opportunity for performance at threshold is 25% of the target award. For 2023, the maximum payout opportunity for our named executive officers under the annual incentive compensation program is 200% of the target award. There is no payout for performance below threshold.

The adjusted EBITDA targets for the Company and its business units are recommended by management subject to approval by the Committee considering operating budgets that reflect our strategic plan. Adjusted EBITDA may reflect certain items which in our view do not reflect ongoing performance such as restructuring costs and impairments, the categories of which are specified at the outset of the performance period.

Following the completion of each year, the Committee reviews the corporate and business unit operating results achieved against the pre-established performance targets approved by the Committee. In addition, as a threshold matter, to ensure that the performance of the individual executives is at the high level expected, senior management reviews with the Committee (or in the case of our CEO, the Committee itself reviews) each executive's individual contributions and personal leadership together with their performance on corporate or business unit objectives, business drivers, business development and other initiatives as applicable. If based on this review, performance at the corporate, business unit or individual level did not meet expectations, the Committee may use its discretion to adjust downward all or a portion of the executive's annual incentive compensation award. In exceptional circumstances, the Committee may use its discretion to increase an executive's annual incentive compensation based on individual performance up to the maximum 200% of target award opportunity.

2023 Annual Incentive Program. In March 2023, the Committee approved our annual cash incentive program design based 90% on Adjusted EBITDA and 10% on individual strategic goals for the CEO and his direct reports. Adjusted EBITDA is measured on consolidated business (corporate) and business unit adjusted EBITDA targets for our 2023 annual incentive program with the pre-established performance tiers ranged from 90% up to 106.5% of the Adjusted EBITDA target for the consolidated business and each business unit. Corresponding payout opportunity levels range, respectively, from 25% of the target award up to a maximum of 200% of the target award. Payout level is interpolated where performance is achieved between the specified performance tiers subject to the maximum payout. Performance achievement below 90% of the adjusted EBITDA target for the corporation or a business unit results in no payout with respect to any portion of the award based on such corporate or business unit's performance. Strategic goals are set on measurable performance metrics specific to each individual NEO's area of responsibility.

The annual cash target incentive opportunities as a percentage of base salary for our NEOs remained the same from 2022 to 2023. Threshold, target and maximum payout levels for our NEOs as a percentage of salary, as approved by the Compensation Committee, are set forth in the table below.

Executive	Threshold (25% of Target)	Target	Maximum (200% of Target)
Michael D. Brown	43.75%	175%	350%
Michael A. Hug	21.25%	85%	170%
Geoff Richards	21.25%	85%	170%
Jeffrey Myers	12.50%	50%	100%
Olivier Chavy*	21.25%	85%	170%

*Mr. Chavy terminated prior to plan payout and thus received no payment under the plan.

Each NEO's annual cash incentive components, weightings and strategic goals for the 2023 fiscal year are set forth below.

2023 Financial Performance Targets and Results (weighted 90%)

For 2023, adjusted EBITDA targets and achievement were as follows.

Business Unit	Target Adjusted EBITDA (millions)	Actual Adjusted EBITDA (millions)	Performance	Payout Ratio
Travel + Leisure Co.	\$962.0	\$907.7	94.4%	43.1%
Wyndham Destinations North America	\$695.5	\$677.9	97.5%	68.3%
Travel and Membership	\$285.0	\$247.4	86.8%	—%

2023 Strategic Goals and Results (weighted 10%)

In addition to our financial performance targets, our CEO and his leadership team are measured on a strategic goal component weighted 10% of their annual incentive target. Strategic goals approved by the Committee for each of the named executive officers and achievement levels are as follows:

Executive	Strategic Goal Measure	Payout Level	Payout Ratio
Michael D. Brown	Complete M&A/Brand Partnership Deals	Target	100%
Michael A. Hug	Reduction of G&A expense	Maximum	200%
Geoff Richards	Inventory on balance sheet as of 12/31/2023	Threshold	25%
Jeffrey Myers	Growth of Virtual Sales	Below Threshold	—%
Olivier Chavy*	Growth of RCI Members	Below Threshold	—%

*Mr. Chavy terminated prior to plan payout and thus received no payment under the plan.

Overall Payout Results for 2023

The Corporate Business Unit and specific strategic goals and actual performance results under the annual cash incentive program for the fiscal year ended December 31, 2023 are outlined in the table below.

In 2023, the Company was challenged by headwinds in the Travel and Membership segment. This segment continued to lag expectations due to lower exchange propensity and slower than anticipated ramp up of travel clubs. In order to offset these challenges, in the fourth quarter of 2023 management made structural and operational changes to reduce Travel and Membership cost structure, while maintaining focus on driving transactions in both exchange and travel clubs. These changes occurred by the end of 2023 allowing us to enter 2024 more streamlined. Given the high impact from these exceptional actions taken, the Committee approved modest positive discretion to annual incentive payments for members of the Executive Committee other than the CEO equal to 9.4% of annual AIP target under the Annual Incentive Plan. Annual incentive plan payments, inclusive of positive discretion, were below target.

Total Payout

Executive	Payout %	Total Target	Total Payout
Michael D. Brown	48.8 %	\$ 2,280,058	\$ 1,112,668
Michael A. Hug	68.2 %	\$ 548,917	\$ 374,581
Geoff Richards	58.3 %	\$ 515,857	\$ 300,951
Jeffrey Myers	55.8 %	\$ 285,205	\$ 159,258

Based on his role as Chief Sales and Marketing Officer, Mr. Myers continues to participate in a sales incentive plan. His annual incentive award under our annual compensation program accounts for 50% of his annual cash bonus opportunity while his sales incentive cash bonus accounts for the remaining 50% of his cash bonus opportunity. This 2023 sales incentive plan paid out at 88.3% of target level measured against targets for Net Operating Income, New Owner Revenue and Cost Management for Wyndham Vacation Clubs North America. These targets, established in the first quarter of 2023, were deemed to be challenging but achievable. Under this incentive plan, Mr. Myers is eligible to be paid up to 200% on each metric based on plan performance in the given year with any amount greater than 200% on each metric to be paid equally over the following 2 years if continued service requirements are met.

The Non-Equity Incentive Plan and Bonus columns of the Summary Compensation Table list the annual incentive compensation we paid our named executive officers for 2023.

Long-Term Incentive Compensation

Consistent with our Total Compensation Strategy, we provide our named executive officers with long-term incentive compensation designed to drive stock price appreciation, to reward long-term business plan delivery aligned with shareholder interests and to promote executive retention. Accordingly, our long-term incentive compensation for our named executive officers generally focuses on aligning their interests with those of shareholders, achieving competitiveness with the external market, rewarding key talent contributions and retention. Long-term incentive compensation awards are granted under our 2006 Equity and Incentive Plan, as amended and restated. Our compensation consultant and the Committee periodically review our plan design to confirm its consistency with our peers with respect to items such as long-term incentive mix prevalence and vesting provisions.

As a general matter, management annually recommends to the Committee an aggregate budget available for long-term incentive compensation. Long-term incentive compensation is recommended by management (other than for our CEO) and reviewed and granted by the Committee to the named executive officers based on individual performance review, scope of responsibility and future potential. Elements of individual performance considered by the Committee in such review include consolidated or business unit results of operations, achievement of strategic objectives and demonstrated leadership.

2023 Long-Term Incentive Plan Awards: On March 7, 2023, the Committee approved increased LTIP awards more heavily weighted toward performance for our CEO and his leadership team. The 2023 target LTIP Award for our CEO is in the form of 55% PSUs and 45% time-vesting RSUs. The other named executive officer awards are in the form of approximately 55% time-vesting RSUs and 45% PSUs on average. PSUs are to be earned based on achievement level of a three-year cumulative adjusted EPS financial metric for the performance period 2023 to 2025. RSUs vest ratably over four years, subject to continued employment. Management and the Committee believe that cumulative adjusted EPS is an appropriate multi-year profitability measure that is complementary to our short term bonus performance metric, adjusted EBITDA, and a strong indicator of the value we return to our shareholders. The three-year targets for cumulative adjusted EPS are set to generally align with our strategic growth plan.

We generally do not disclose forward-looking goals before the close of the performance period as it is competitively sensitive information. We intend to disclose these 2023 PSU goals following the end of the performance period, at which time achievement against performance goals will be determined.

LTIP Performance Stock Units Awarded in 2021

To motivate our executives to accelerate growth during the post-COVID-19 ramp up, the Committee awarded 2021 PSUs in the form of an LTIP Modifier. Our CEO was granted an award in the form of additional LTIP Modifier PSUs (Modifier PSUs) that provide the opportunity to earn up to an additional 50% of his target LTIP award. Our other named executive officers were awarded Modifier PSUs that provide the opportunity to earn up to an additional 25% of their respective target LTIP awards. These are maximum award levels and as such, the vesting of these PSUs was contingent on achieving a stretch goal that requires premium performance in excess of target based on adjusted EPS achieved in the third year of a three-year performance period. No portion of these Modifier PSUs would vest for performance achievement at or below the adjusted EPS target. Maximum achievement was established at 110% of target.

In March 2021, the Committee took into consideration the continuing uncertainty related to the global pandemic and the challenge of setting targets in the near term. In response, the Committee set an adjusted EPS target measured only for the third year of the three-year performance period to motivate accelerated growth levels and incentivize long-term performance.

Financial Targets for 2021 PSU Awards covering the 2023 performance period

Premium Performance Scale						
Performance	(Threshold) 100% of 2023 Target	102.5% of Target	105.0% of Target	107.5% of Target	(Maximum) 110% of Target	Actual Performance

Achievement	—%	25%	50%	75%	100%	100%

Shareholder Outreach

We have continued our shareholder outreach program to seek feedback on our governance and executive compensation practices. In 2023, for our 2024 executive compensation program, members of management reached out to our 16 largest shareholders representing 59% of our total outstanding shares. Of these shareholders, three accepted our invitation for a meeting. During these meetings we highlighted key elements of our executive compensation program and ESG initiatives. Based on the support we received from shareholders in the 2023 advisory vote on executive compensation and our shareholder outreach efforts, we believe there was general support for our executive compensation program.

Compensation Actions for 2024

Early in March 2024, the Committee took several actions with respect to our executive compensation program, to support a high performance environment.

- **2024 Annual Incentive Plan:** The 2024 Annual Incentive Plan design is consistent with the 2023 design in that we will continue with performance goals measured against corporate and business unit adjusted EBITDA targets for the CEO and senior leadership team reporting directly to the CEO. For 2024, management recommended and the Committee approved adjusted EBITDA weighting increasing from 90% to 100% to further align the named executive officers with shareholders in continuing to emphasize adjusted EBITDA delivery through execution of our annual plan.
- **2024 Long-Term Incentive Plan Awards:** For 2024, the Committee approved LTIP awards for the CEO and named executive officers aligned with the award mix set in 2022. The 2024 target LTIP Award for our CEO consists of 50% PSUs and 50% time-vesting RSUs. The other named executive officer awards consist of 25% PSUs and 75% time-vesting RSUs. PSUs will be measured on an adjusted EPS financial metric for the performance period 2024 to 2026. For each calendar year ending December 31, 2024, 2025 and 2026, the Compensation Committee will establish a “target” level of adjusted EPS to be achieved for such year with targets set in the first quarter of each year. The percentage at which each year’s target has been achieved will be averaged following the end of the full three-year performance period in order to calculate the cumulative percentage of achievement of the overall adjusted EPS goal. The number of PSUs earned will be calculated as the target number of PSUs multiplied by the three-year average performance achievement as a percentage of target subject to continued employment through the last day of the three-year performance period. The Committee also approved implementation of a retirement provision in the terms of our long-term incentive equity plan to incentivize our senior leaders to plan for succession in the case of retirement from

the Company. The provision applies to all participants in the long-term incentive equity plan who provide notice of retirement upon meeting requirements of 62 years of age and 10 years of service.

- **2024 CEO At-Risk Pay Mix:** On March 12, 2024, the Committee approved an annual target total direct compensation package for our CEO consisting of the following ongoing elements: base salary (10%), target annual cash incentive award (16%) and target LTIP award (74%). His annual target LTIP awards include a mix of 50% PSUs and 50% time-vesting RSUs. Of our CEO's target annual total direct compensation for 2024, 90% is variable and at-risk in the form of annual cash incentive and LTIP awards and 54% is contingent upon performance metrics in the form of annual cash incentive and PSUs.

Perquisites

We provide our named executive officers with perquisites that management and the Committee believe are reasonable, competitive and consistent with our Total Compensation Strategy. Management and the Committee believe that our perquisites help us to retain highly talented managers and allow them to operate more effectively.

In February 2023, the Committee approved perquisites for the named executive officers including a leased automobile and financial planning services. For certain perquisites, the named executive officers other than Mr. Brown receive a tax gross-up, which means they receive additional compensation to reimburse them for the amount of taxes owed on the compensation imputed for the perquisite. Mr. Brown does not receive any tax gross-up on perquisites. The Committee approved personal use of Company-provided non-commercial aircraft for Mr. Brown. The Compensation Committee believes that it is in the best interests of the Company from productivity and safety perspectives that the CEO be eligible to use Company provided non-commercial aircraft for personal use. Personal use of non-commercial aircraft is limited to 20 hours per calendar year for the CEO. Mr. Brown did not use Company provided non-commercial aircraft for personal use in 2023.

The 2023 All Other Compensation Table lists compensation attributable to perquisites provided to the named executive officers for 2023.

Deferred Compensation Plans

Officer Deferred Compensation Plan. Our nonqualified officer deferred compensation plan permits named executive officers to defer base salary and annual incentive compensation. We match executive contributions to the plan up to 6% of base salary, annual cash incentive compensation and annual cash sales incentive compensation.

The executive makes an irrevocable deferral election prior to the beginning of the calendar year. The executive may elect a single lump-sum payment of his or her account or may elect payments in annual installments up to ten years. The participant's entire account balance is 100% vested. The contributions to our officer deferred compensation plan applicable to our named executive officers are listed in the Nonqualified Deferred Compensation Table.

401(k) Plan. We provide all employees, including our named executive officers, with a 401(k) plan after thirty (30) days of service. Our 401(k) plan permits named executive officers to defer base salary, subject to applicable Internal Revenue Code dollar limits. We provide named executive officers and other participants a Company match of base salary contributed up to 6% of base salary after one year of service as permitted under the plan and subject to applicable IRC dollar limits. The Company match is 100% vested.

Severance Arrangements

The employment agreements and employment letters of our named executive officers provide for payments as a percentage of base salary and annual incentive compensation, as well as accelerated vesting of specified long-term equity grants, and in the case of performance-based equity awards, vesting based on performance during a specified period, if the executive's employment is terminated without cause or, if applicable, for a constructive discharge. These payments and terms are discussed more specifically below under "Agreements with Named Executive Officers" and "Potential Payments on Termination or Change-in-Control."

The severance terms for the named executive officers were established in connection with their employment agreements and employment letters consistent with peer group market practices. We believe these arrangements are necessary to attract and retain our executives and ensure the continuity of management. The primary focus of the severance terms is generally on the

termination of employment and thus the value of these terms arises only in the context of imminent termination. The severance terms do not enhance an executive's current income and therefore are independent of the peer group data review.

Change-in-Control Arrangements

In the event of a change-in-control of Travel + Leisure Co., the named executive officers receive cash severance payments only if their employment is terminated without cause or, if applicable, for constructive discharge following the change-in-control. Our named executive officers are not entitled to any excise tax gross-up in connection with their change-in-control arrangements. Long-term equity compensation grants made to all eligible employees, including the named executive officers, fully vest on a change-in-control. The payments and terms of our named executive officers' change-in-control arrangements are discussed under "Agreements with Named Executive Officers" and "Potential Payments on Termination or Change-in-Control."

The change-in-control terms concerning cash severance pay for the named executive officers established in connection with their employment agreements are generally consistent with peer group market practices. Since a potential change-in-control transaction generally results in increased shareholder value, the Committee believes that it is important to provide incentives to motivate the named executive officers to pursue and complete a potential transaction should it arise and ensure retention. Like the severance arrangements, the value of the change-in-control arrangements arises only in the context of an imminent change-in-control. The terms do not enhance the named executive officers' current income and therefore are independent of the peer group data review.

Executive Officer Stock Ownership Guidelines

Our Executive Officer Stock Ownership Guidelines are intended to further align the interests of executive officers with the interests of shareholders. The guidelines require our named executive officers to own our common stock with a market value at least equal to the following multiples: CEO: 5x base salary, CFO: 3x base salary, and all other executive officers: 2x base salary. Named executive officers have a period of five years after first becoming an executive officer subject to the guidelines to achieve compliance with this ownership requirement. Stock ownership meeting the guidelines includes common stock and RSUs but excludes PSUs and stock options. As of December 31, 2023, all of the named executive officers exceeded these stock ownership requirements.

Policy Against Hedging and Pledging of Company Stock

Our insider trading policy contains restrictions on transactions in our securities by our Directors, executive officers and other employees who have regular access to material nonpublic information in the normal course of their duties. Under this policy, these parties are prohibited from directly or indirectly purchasing financial instruments or engaging in any derivative transactions that are designed to hedge, offset or eliminate the risk of any decrease in the market value of Travel + Leisure Co. securities. These persons are also prohibited under this policy from pledging Travel + Leisure Co. securities as collateral for personal loans, including holding Travel + Leisure Co. securities in margin accounts.

Compensation Committee Report

The Compensation Committee reviewed and discussed with management the Compensation Discussion and Analysis contained in this proxy statement. Based on this review, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement for filing with the SEC.

(a) Represents the aggregate grant date fair value of equity awards computed in accordance with ASC 718. The grant date fair value for RSU and PSU awards is measured based on the closing price of our common stock on the date of grant. A discussion of the assumptions used in calculating the fair value of option awards may be found in Note 21 to our 2023 audited financial statements in the Form 10-K filed with the SEC on February 21, 2024. The amount in the stock awards column reflects the grant date fair value of time-vesting RSUs and of PSUs at target granted under the 2023 LTIP. The grant date fair value of PSUs granted in 2023 assuming maximum performance achievement under award terms is as follows: Mr. Brown, \$10,799,936; Mr. Hug, \$2,999,926; Mr. Richards, \$2,949,985; Mr. Myers, \$2,949,985; Mr. Chavy, \$2,499,924.

(b) For 2023, the amount shown in "Non-Equity Incentive Plan Compensation" reflects annual incentive compensation for 2023, paid in 2024 and for Mr. Myers, also includes sales incentive compensation earned in 2023. The total payout for Mr. Myers under the sales incentive plan for 2023 was \$252,067. The amount shown in "Bonus" reflects Committee approved use of positive discretion of 9.4% of the AIP target under the Annual Incentive Plan for the members of the Executive Committee below CEO. A description of the exceptional actions taken is provided in the "Annual Incentive Compensation" section above.

(c) See All Other Compensation Table for a description of compensation included in this column.

(d) Information is not reported for Mr. Chavy for 2021 because 2022 was his first year as a named executive officer.

- (a) Aggregate incremental cost of automobile benefit calculated as the aggregate Company cost less any executive contribution. The amounts for Company cost include insurance and other charges and exclude tax gross-up described below. Under this program, executives have the option to purchase their vehicle at depreciated book value at the end of their lease, for which there is no direct aggregate incremental cost to the Company; however, in that case the Company foregoes the proceeds from the sale of the car by our leasing vendor, which would amount to any positive difference between the sale price of the vehicle and depreciated book value.
- (b) Amounts exclude tax gross-up described below in footnote (d).
- (c) Mr. Myers attended employee recognition events and these additional amounts were recognized as income related to his attendance. He did not receive tax-gross up payments for these amounts related to attendance at employee recognition events.
- (d) Mr. Brown does not receive any tax-gross up on perquisites. Aggregate tax gross-up for our other named executive officers consisted of the following: Mr. Hug: automobile \$14,217 and financial planning \$4,165; Mr. Richards: automobile \$11,034 and financial planning \$4,165; Mr. Myers: automobile \$1,104 and financial planning \$4,165; and Mr. Chavy: automobile \$6,692 and financial planning \$4,165.

Messrs. Brown, Myers, and Chavy did not receive tax-gross up payments for these amounts. On occasion, an executive officer's spouse or other invited guests may accompany the executive officer on a Company-provided non-commercial aircraft (leased under timeshare or chartered) when the aircraft is in use for business purposes. In those cases, there generally has not been additional aggregate incremental cost to the Company and, as a result, no amount associated with such use is reflected in the "2023 All Other Compensation Table."
- (g) The value of dividends is factored into the grant date fair value of our stock awards. Accordingly, dividends paid on vesting of RSUs are not reflected in the table above.

(a) The amounts in these columns represent the threshold, target and maximum number of shares that may be earned under PSU awards granted on March 7, 2023. PSUs are subject to vesting based on achievement against pre-established performance metric, cumulative adjusted Diluted Earnings Per Share (EPS), measured over the three-year performance period (January 1, 2023 to December 31, 2025). Participants do not earn any shares for performance below threshold.

(b) Represents a grant of RSUs which vest ratably over a period of four years on each anniversary of March 10, 2023.

(c) Represents the aggregate grant date fair value of equity awards computed in accordance with ASC 718. Grant date fair value of PSUs is based on the probable outcome on the grant date (the target number of PSUs awarded).

(d) Represents potential threshold, target and maximum annual incentive compensation under the 2023 annual incentive program. Amounts actually paid for 2023 are reported in the Non-Equity Incentive Plan Compensation column and Bonus column of the Summary Compensation Table. Potential threshold, target and maximum for Mr. Myers includes amounts for annual incentive compensation and his continued participation in the sales incentive plan.

Under our 2006 Equity and Incentive Plan, as amended and restated, all grants set forth in the table fully vest on a change-in-control. Dividends paid on our common stock are paid in cash only to the extent the underlying RSUs and PSUs vest.

Agreements with Named Executive Officers

The following describes our employment, termination and related arrangements with our named executive officers. Additional information regarding the termination arrangements of our named executive officers can be found under "Potential Payments on Termination or Change-in-Control."

Mr. Brown

Employment Agreement. We entered into an amended and restated employment agreement with Michael Brown, our CEO, dated June 1, 2021 which extended the term of his employment with the Company for a period of three years until May 31, 2024.

Mr. Brown's agreement provides for a minimum base salary of \$1.2 million, and an annual incentive compensation opportunity with a target amount equal to 150% of his base salary subject to meeting performance goals. Mr. Brown is also eligible for grants of long-term incentive compensation as determined by the Compensation Committee and employee benefits and perquisites generally available to our senior executive officers. Mr. Brown's agreement provides for up to 20 hours per calendar year of personal use of an aircraft made available by the Company, subject to such terms and conditions determined by the Committee during the period of employment.

Mr. Brown's agreement provides that if his employment during the term of employment is terminated without cause or due to a constructive discharge, he will be entitled to a lump sum payment equal to 299% of the sum of (a) his then base salary, plus (b) an amount equal to the highest annual incentive award paid to him with respect to the three fiscal years immediately preceding such termination (but in no event exceeding his then target annual incentive award). In addition, all time-based equity awards (including stock options, stock appreciation rights, and RSUs) which would have otherwise vested within one year following such employment termination, will vest upon such termination, and any performance-based equity awards (excluding stock options and stock appreciation rights) will vest and be paid on a pro rata basis (to the extent that the performance goals applicable to such award are achieved), with such proration to be determined based upon the portion of the full performance period during which he was employed plus 12 months, with payment of such performance-based awards to occur at the time such awards are paid to employees generally. The foregoing provisions relating to such equity awards will not supersede or replace any provision or right of the executive relating to the acceleration of the vesting of such awards in the event of a change in control or upon his death or disability. He will also be entitled to a two year post termination exercise period for any outstanding vested stock appreciation rights and options (but not beyond the original expiration date). He will also be entitled to elect medical, dental and vision benefits coverage under COBRA and, if he elects such coverage, the Company will reimburse him for the costs of such continuing health coverage under COBRA until the earlier of (x) 18 months from the coverage commencement date or (y) the date he becomes eligible for health and medical benefits from a subsequent employer.

Under his employment agreement, Mr. Brown has agreed to be subject to various restrictive covenants. Mr. Brown's entitlement to the foregoing severance payments and benefits is subject to his timely execution and non-revocation of a general release of claims in favor of the Company.

Mr. Hug

Employment Agreement. We entered into an amended and restated employment agreement with Michael Hug, our CFO, dated June 1, 2021, which extended the term of his employment with the Company for a period of three years until May 31, 2024.

Mr. Hug's agreement provides for a minimum base salary of \$594,825 and an annual incentive compensation opportunity with a target amount equal to 85% of his base salary subject to meeting performance goals. Mr. Hug is also eligible for grants of long-term incentive compensation as determined by the Compensation Committee and employee benefits and perquisites generally available to our senior executive officers.

Mr. Hug's agreement provides that if his employment during the term of employment is terminated without cause or due to a constructive discharge, he will be entitled to a lump sum payment equal to 200% of the sum of (a) his then base salary, plus (b) an amount equal to the highest annual incentive award paid to him with respect to the three fiscal years immediately preceding such termination (but in no event exceeding his then target annual incentive award). In addition, all time-based equity awards (including stock options, stock appreciation rights, and RSUs) which would have otherwise vested within one year following such employment termination, will vest upon such termination, and any performance-based equity awards (excluding stock options and stock appreciation rights) will vest and be paid on a pro rata basis (to the extent that the performance goals applicable to such award are achieved), with such proration to be determined based upon the portion of the full performance

period during which he was employed plus 12 months, with payment of such performance-based awards to occur at the time such awards are paid to employees generally. The foregoing provisions relating to such equity awards will not supersede or replace any provision or right of the executive relating to the acceleration of the vesting of such awards in the event of a change in control or upon his death or disability. He will also be entitled to a two year post termination exercise period for any outstanding vested stock appreciation rights and options (but not beyond the original expiration date). He will also be entitled to elect medical, dental and vision benefits coverage under COBRA and, if he elects such coverage, the Company will reimburse him for the costs of such continuing health coverage under COBRA until the earlier of (x) 18 months from the coverage commencement date or (y) the date he becomes eligible for health and medical benefits from a subsequent employer.

Under his employment agreement Mr. Hug has agreed to be subject to various restrictive covenants. Mr. Hug's entitlement to the foregoing severance payments and benefits is subject to his timely execution and non-revocation of a general release of claims in favor of the Company.

Mr. Richards

Employment Letter. In May 2018, we entered into an employment letter with Mr. Richards with an effective date of June 1, 2018. Mr. Richards' employment letter initially provides for a base salary of \$500,000, annual incentive compensation with a target amount equal to 75% of his base salary subject to meeting performance goals, grants of equity incentive compensation as determined by the Committee and employee benefits and perquisites generally available to our executive officers.

Mr. Richards' employment letter provides that if his employment is terminated by the Company other than for cause, but not including termination due to death or disability, he will be entitled to a lump sum payment equal to 200% of the sum of his then current base salary plus the highest annual incentive compensation award paid to Mr. Richards with respect to the three years immediately preceding the year in which his employment is terminated (but in no event will the annual incentive compensation portion exceed his then target incentive compensation award). In addition, if he elects to continue health plan coverage in accordance with COBRA, the Company will reimburse him for the costs associated with continued COBRA health coverage for up to 18 months, terminable earlier if he becomes eligible for coverage from a subsequent employer.

In the event of a termination by the Company other than for cause, but not including termination due to death or disability, all of Mr. Richards' then outstanding time-based equity awards that would otherwise vest within the one year following such termination will vest and any such awards that are stock options or stock appreciation rights will remain exercisable until the earlier of two years following such termination and the original expiration date of such awards. Any then outstanding performance-based equity incentive awards would vest and be paid on a prorated basis following the performance period, subject to achievement of performance goals, based upon the portion of the performance period during which Mr. Richards was employed by the Company plus twelve months. The provisions of the employment letter relating to equity awards will not supersede or replace any provision or right of Mr. Richards relating to the acceleration of the vesting of such awards in the event of a change in control or death or disability.

Mr. Richards' entitlement to the foregoing severance payments is subject to his timely execution and non-revocation of a general release of claims in favor of the Company.

Mr. Myers

Employment Letter. In May 2018, we entered into an employment letter with Mr. Myers with an effective date of June 1, 2018. Mr. Myers' employment letter initially provides for a base salary of \$500,000, annual incentive compensation with a target amount equal to 50% of his base salary subject to meeting performance goals, grants of equity incentive compensation as determined by the Committee, continued participation in the Sales & Marketing Leadership Incentive Plan with a target award of \$250,000 from the effective date as approved by the Committee and employee benefits and perquisites generally available to our executive officers.

Mr. Myers' employment letter provides that if his employment is terminated by the Company other than for cause, but not including termination due to death or disability, he will be entitled to a lump sum payment equal to 200% of the sum of his then current base salary plus the highest annual incentive compensation award paid to Mr. Myers with respect to the three years immediately preceding the year in which his employment is terminated (but in no event will the annual incentive compensation portion exceed his then target incentive compensation award). In addition, if he elects to continue health plan coverage in accordance with COBRA, the Company will reimburse him for the costs associated with continued COBRA health coverage for up to 18 months, terminable earlier if he becomes eligible for coverage from a subsequent employer.

In the event of a termination by the Company other than for cause, but not including termination due to death or disability, all of Mr. Myers' then outstanding time-based equity awards that would otherwise vest within the one year following such

termination will vest and any such awards that are stock options or stock appreciation rights will remain exercisable until the earlier of two years following such termination and the original expiration date of such awards. Any then outstanding performance-based equity incentive awards would vest and be paid on a prorated basis following the performance period, subject to achievement of performance goals, based upon the portion of the performance period during which Mr. Myers was employed by the Company plus twelve months. The provisions of the employment letter relating to equity awards will not supersede or replace any provision or right of Mr. Myers relating to the acceleration of the vesting of such awards in the event of a change in control or death or disability.

Mr. Myers' entitlement to the foregoing severance payments is subject to his timely execution and non-revocation of a general release of claims in favor of the Company.

Mr. Chavy

Employment Letter. In February 2019, we entered into an employment letter with Mr. Chavy with an effective date of February 25, 2019. Mr. Chavy's employment letter initially provides for a base salary of \$550,000, annual incentive compensation with a target amount equal to 75% of his base salary subject to meeting performance goals, grants of equity incentive compensation as determined by the Committee and employee benefits and perquisites generally available to our executive officers.

Mr. Chavy's employment letter provides that if his employment is terminated by the Company other than for cause, but not including termination due to death or disability, he will be entitled to a lump sum payment equal to 200% of the sum of his then current base salary plus the highest annual incentive compensation award paid to Mr. Chavy with respect to the three years immediately preceding the year in which his employment is terminated (but in no event will the annual incentive compensation portion exceed his then target incentive compensation award). In addition, if he elects to continue health plan coverage in accordance with COBRA, the Company will reimburse him for the costs associated with continued COBRA health coverage for up to 18 months, terminable earlier if he becomes eligible for coverage from a subsequent employer.

In the event of a termination by the Company other than for cause, but not including termination due to death or disability, all of Mr. Chavy's then outstanding time-based equity awards that would otherwise vest within the one year following such termination will vest and any such awards that are stock options or stock appreciation rights will remain exercisable until the earlier of two years following such termination and the original expiration date of such awards. Any then outstanding performance-based equity incentive awards would vest and be paid on a prorated basis following the performance period, subject to achievement of performance goals, based upon the portion of the performance period during which Mr. Chavy was employed by the Company plus 12 months. The provisions of the employment letter relating to equity awards will not supersede or replace any provision or right of Mr. Chavy relating to the acceleration of the vesting of such awards in the event of a change in control or death or disability.

Mr. Chavy's entitlement to the foregoing severance payments is subject to his timely execution and non-revocation of a general release of claims in favor of the Company.

Separation and Release Agreement. Mr. Chavy's employment with the Company terminated on February 20, 2024. In connection with Mr. Chavy's separation from employment, we entered into a separation and release agreement in February 2024. Mr. Chavy has agreed to be subject to various restrictive covenants and his entitlement to the severance payment was subject to his execution and non-revocation of a general release of claims in favor of the Company. Pursuant to the terms of his Employment Letter, Mr. Chavy received severance payments and benefits as follows: (i) a lump sum cash severance of \$2,403,331; (ii) accelerated vesting of 59,127 outstanding RSUs (\$2,444,901) (iii) accelerated vesting of 13,755 outstanding non-qualified stock options which remain outstanding for two years following termination subject to any earlier expiration date; (iv) vesting of 6,779 PSUs for the performance period from January 1, 2021 through December 31, 2023, 7,565 PSUs for the performance period from January 1, 2022 through December 31, 2024, 17,819 PSUs from the 2022 special performance grant for the performance period from January 1, 2022 through December 31, 2025 and 21,144 PSUs for the performance period from January 1, 2023 through December 31, 2025, representing in each case a prorated portion of his outstanding PSU awards plus 12 months of vesting credit, with the payment of any such PSUs to occur at the same time awards are paid out generally subject to achievement of the performance goals.

(a) Represents 18 months of reimbursement for continued health plan coverage in accordance with COBRA if elected by the executive officer.

(b) Upon a change-in-control, death or disability, all grants made under our 2006 Equity and Incentive Plan, as amended and restated, fully vest and any performance conditions imposed with respect to PSU awards are deemed to be fully achieved at target, and with respect to LTIP Modifier PSUs granted March 3, 2021 and the one-time PSU award granted to Mr. Chavy on March 1, 2022, these are deemed to be fully achieved at maximum, whether or not in the case of change-in-control, executive's employment is terminated. Equity acceleration value was calculated using the closing price of our common stock on the NYSE on December 31, 2023, of \$39.09.

(c) For termination without cause, LTIP Modifier PSUs granted March 3, 2021 provide incremental upside opportunity if premium performance above target is achieved. Amount reported reflects the full amount of the named executive officer's LTIP Modifier grant based on performance through December 31, 2023. For annual LTIP PSUs granted March 1, 2022, the amount reflects the number of shares that may be earned at maximum based on performance through December 31, 2023. Mr. Chavy's one-time PSU award granted March 1, 2022 is subject to a single level of premium performance achievement. No PSUs will be earned for target performance. Amount reported reflects estimated value of full achievement as no partial achievement is possible. For annual LTIP PSUs granted March 7, 2023, the amount reflects the number of shares that may be earned at threshold based on performance through December 31, 2023. Any payout of PSUs upon a termination without cause is subject to actual achievement against performance targets and will be determined when vesting occurs for other participants. Equity value was calculated using the closing price of our common stock on the NYSE on December 31, 2023, of \$39.09.

Accrued Pay. The amounts shown in the table above do not include payments and benefits, including accrued salary and annual incentive compensation, to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment.

Deferred Compensation. The amounts shown in the table do not include distributions of aggregate balances under the Officer Deferred Compensation Plan. Those amounts are shown in the Nonqualified Deferred Compensation Table.

Covered Terminations. The table assumes a termination of employment that is eligible for severance or other benefits under the terms of the named executive officers' employment agreement or employment letter and our 2006 Equity and Incentive Plan.

- Subject to the terms of the executive's agreement or employment letter, a termination of an executive officer is generally for cause if it is for any of the following reasons: the executive's willful failure to substantially perform his duties as our employee (other than any such failure resulting from incapacity due to physical or mental illness); any act of fraud, misappropriation, dishonesty, embezzlement or similar conduct against us or the executive's conviction of a felony or any crime involving moral turpitude (which conviction, due to the passage of time or otherwise, is not subject to further appeal); the executive's gross negligence in the performance of his duties; or the executive purposefully or negligently makes (or has been found to have made) a false certification to us pertaining to our financial statements.
- Under the employment agreements of Mr. Brown and Mr. Hug, a constructive discharge means the occurrence of any material breach by us of the terms of the executive's employment agreement; any material reduction in base salary or target award opportunity under our annual incentive plan; any material diminution in the executive's authority, duties or responsibilities; a required relocation of over fifty miles; or our decision not to offer to renew his employment agreement on substantially similar terms prior to the end of the executive's period of employment (as may be extended from time to time).
- A without cause termination occurs if the executive's employment is terminated other than due to death, disability or termination for cause.

Acceleration of Equity Awards. Upon a change-in-control as defined in our 2006 Equity and Incentive Plan, grants made to all eligible employees, including the named executive officers, under the plan fully vest and any performance conditions imposed with respect to PSU awards are deemed to be fully achieved at target and for LTIP Modifier PSUs are deemed to be fully achieved at maximum. Under the individual agreements for awards, all awards fully vest on the death or disability of the named executive officer with performance contingent awards vesting at target. The table does not reflect a reduction in shares that would be withheld for taxes on vesting.

Under our 2006 Equity and Incentive Plan, as amended and restated, a change-in-control generally means any person or persons (other than us, any fiduciary holding securities under a company employee benefit plan or any of our subsidiaries) becomes the beneficial owner of 30 percent or more of our outstanding voting shares, a merger of Travel + Leisure Co. or any of our subsidiaries is consummated with another company, consummation of a plan of liquidation of the Company or at least 40 percent of our assets are sold (and following each of the foregoing events, a majority of our pre-change-in-control Board does not constitute a majority of the surviving or purchasing entity's board); or individuals who presently make up our Board or who become members of our Board with the approval of at least two-thirds of our existing Board (other than a new Director who assumes office in connection with an actual or threatened election contest) cease to be at least a majority of the Board.

Payments Upon Change-in-Control Alone. For our named executive officers, severance payments in connection with a change-in-control are made only if the executive suffers a covered termination of employment. The table assumes that the employment of these executives was terminated on a change-in-control as a constructive discharge, as applicable, or termination without cause. Grants made under our 2006 Equity and Incentive Plan fully vest on a change-in-control whether or not the executive's employment is terminated.

2023 Pay Versus Performance Disclosure

As required by Item 402(v) of Regulation S-K, this section includes information about the relationship between "Compensation Actually Paid" (CAP) and the financial performance measures reported in the Pay Versus Performance Table below. Compensation "actually paid" is an amount which is derived pursuant to a formula provided in SEC rules and guidance. The dollar amounts in the "Compensation Actually Paid" columns of the Pay Versus Performance Table below do not reflect the actual amount of compensation earned by or paid to our Chief Executive Officer (CEO) or our other Named Executive Officers (NEOs). For further information on our Executive Compensation Program refer to "Executive Compensation - Compensation Discussion and Analysis" above in this Proxy Statement.

- (e) Total shareholder return is calculated for the measurement period based on a fixed investment of \$100 beginning on December 31, 2019 and ending on December 31 of each applicable year in the Pay Versus Performance Table, assuming the reinvestment of dividends.
- (f) Total shareholder return is calculated for the Standard & Poor's Rating Services (S&P) Hotels, Resorts & Cruise Lines index for the measurement period based on a fixed investment of \$100 beginning on December 31, 2019 and ending on December 31 of each applicable year in the Pay Versus Performance Table, assuming the reinvestment of dividends. This industry index is also used in the Stock Performance Graph in Item 5 of our 2023 Annual Report on Form 10-K.
- (g) The Company has identified adjusted EPS as the company-selected financial performance measure for the pay versus performance disclosure as it represents the most important financial performance measure use to link CAP to our CEO and other NEOs in 2023 to the Company's performance. (See Appendix A in this Proxy Statement for a reconciliation of adjusted EPS, a non-GAAP measure, the most directly comparable GAAP measure.)

Financial Performance Measures

As described in "Compensation Discussion and Analysis," our executive compensation program reflects a variable pay-for-performance approach by the Compensation Committee. The financial performance measures which the Compensation Committee utilizes for both our annual and long-term incentive compensation program are selected on the basis of those financial performance measures which the Committee believes provide appropriate incentive to our senior executives to increase shareholder value. For 2023, the most important financial performance measures linking CAP to financial performance are the following:

- Adjusted Diluted Earnings Per Share (EPS)
- Adjusted EBITDA

Adjusted EPS is the financial performance measure for Performance Stock Units (PSUs) awarded in our 2023 Long-Term Incentive Plan. Management and the Committee believe that adjusted EPS is an appropriate profitability measure that is complementary to our short-term incentive performance metric, adjusted EBITDA, and a strong indicator of the value we return to shareholders. Adjusted EBITDA at the corporate consolidated or business unit level is the primary financial performance measure in our annual incentive plan. Adjusted EBITDA is the profitability measure the Company uses to assess performance and allocate resources. To drive greater alignment between strategic priority areas and incentive compensation, achievement of one or more strategic goals determined 10% of the annual incentive opportunity under the Annual Incentive Plan for 2023. These goals are determined individually for each executive based on role and focus area.

Discussion of Information Provided in the Pay Versus Performance Table

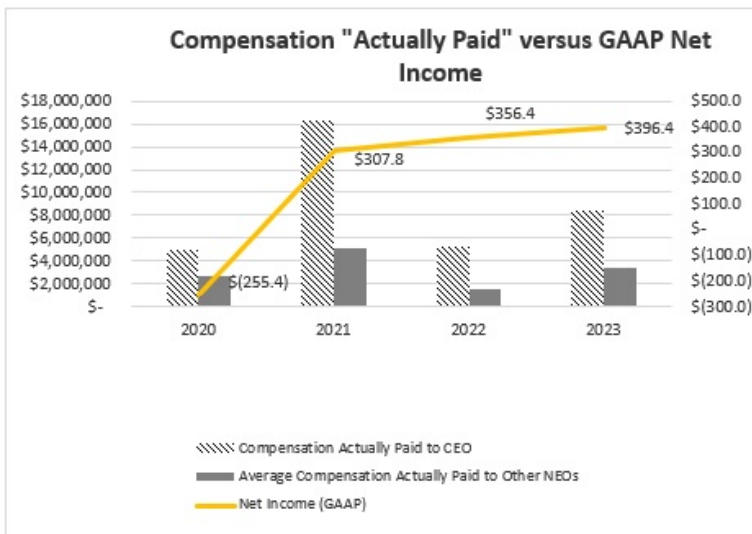

As described further in the "Compensation Discussion and Analysis" our total compensation strategy is designed to attract, retain and motivate high-performing senior management and to support a high-performance environment by linking compensation to performance with a long-term focus. Given our long-term focus for our executives, aligned with shareholder interests, the Committee does not assess pay for performance alignment based on CAP in a specific year as derived pursuant to Regulation S-K 402(v). Management and the Compensation Committee establish financial performance metrics and rigorous goals for incentive compensation generally aligned with annual operating budgets and forward-looking strategic plans for the upcoming performance cycle.

The following describes the relationship of CAP and each of the financial performance measures presented in the Pay Versus Performance Table, and the relationship between the Company's cumulative TSR and the peer group cumulative TSR over the above time period.

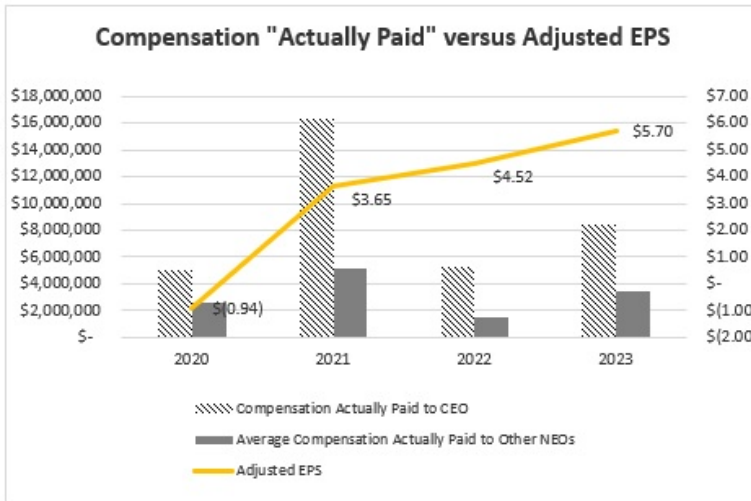

Total Shareholder Return: The year-over-year change in CAP of our CEO and our other NEOs is aligned with Company cumulative TSR across the time horizon in the Pay Versus Performance Table. TSR is calculated for the measurement period based on a fixed investment of \$100 beginning on December 31, 2019 and ending on December 31 of each applicable year. This alignment of "compensation actually paid" with the Company's cumulative TSR over the same period reflects that a significant portion of total compensation paid to our CEO and to the other NEOs in this period is comprised of equity awards and the value of shares earned and received directly reflects the rate of return comprised of our total shareholder return. As

referenced in "Compensation Discussion and Analysis" equity awards granted to our named executive officers under our long-term incentive plan are designed to align their interests with our shareholder's interests. Regular annual equity awards constitute, for 2023, on average, approximately 74% of their annual target total direct compensation and vest over multi-year periods.

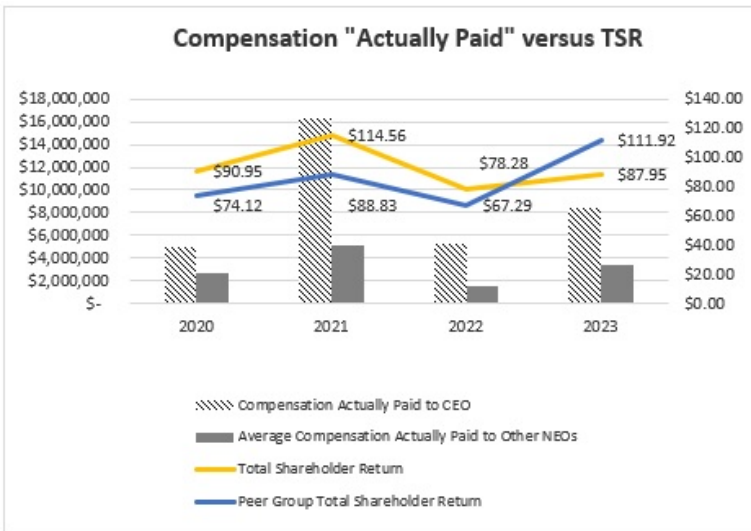

Net Income: CAP for our CEO and other NEOs is generally aligned with the change in Net Income from 2020 to 2023 with the exception of 2022, where CAP for our CEO and other NEOs decreased while Net Income increased. 2021 Net Income increased by more than 200% compared to 2020 with the return to more normalized operations as the recovery from COVID-19 continued. Year-over-year net income growth continued from 2021 to 2022 with 16% growth while CAP decreased from 2021 to 2022. Year-over-year net income growth continued from 2022 to 2023 with 11% growth while CAP also increased. As designed, regular annual equity awards for 2023 constitute on average, approximately 74% of the annual target total direct compensation packages for our CEO and other NEOs ensuring alignment with shareholder interests.

Adjusted EPS: The year-over-year change in CAP for our CEO and other NEOs is generally aligned with the change in adjusted EPS from 2020 to 2023 with the exception of 2022, where CAP for our CEO and other NEOs decreased while adjusted EPS increased. 2020 was significantly impacted by the COVID-19 pandemic and 2021 saw the return to more normalized operations as the recovery from COVID-19 continued. Adjusted EPS continued to increase from 2021 to 2022 with 24% growth and from 2022 to 2023 with 26% growth. As referenced above, regular annual equity awards for 2023 constitute on average, approximately 74% of the total target total direct compensation packages for our CEO and other NEOs ensuring alignment with shareholder interests.

Company TSR Compared to Peer Group TSR: The Company's TSR for the period of 2020 to 2022 included in the above table outperformed the S&P Hotels, Resorts & Cruise Lines index cumulative TSR for the same period. While we did not see this same trend for 2023 in comparison to peer group TSR, we did see an increase in Company TSR from 2022 to 2023. The Company believes that this performance, while lower against the peer group index, results from management's emphasis on its key performance indicators for its business and its focus on growing both adjusted EPS and adjusted EBITDA, which increase shareholder value and result from effective execution of those key performance indicators.

2023 Pay Ratio Disclosure

This section includes information about the relationship of the annual total compensation of our employees and the annual total compensation of our CEO. For purposes of determining our pay ratio for 2023, the median of the annual total compensation of all employees of our Company (other than our CEO) was \$44,082 and the annual total compensation of our CEO was \$12,442,726. Based on this information, the ratio of the annual total compensation of our CEO to the median of the annual total compensation of all employees for 2023 was 282 to 1. This pay ratio disclosure is a reasonable estimate calculated in a manner consistent with SEC rules and guidance.

For 2023 we re-identified the median employee, as required according to SEC rules every three years. To identify the median of the annual total compensation of all our employees we used the following methodology:

- We determined that, as of December 31, 2023, our employee population, including our full-time, part-time and temporary employees, consisted of 19,022 individuals (excluding our CEO), with 14,861 of these individuals located in the U.S. and 4,161 located outside of the U.S. Under SEC rules which provide an exemption for a de minimis number of employees located outside of the U.S., we excluded a total of 914¹ non-U.S. employees from this employee population. For purposes of determining our pay ratio, our designated employee population included a total of 18,108 employees, including 14,861 U.S. employees and 3,247 non-U.S. employees.
- To identify the median employee, we compared the amount of annual base salary, overtime, cash incentive awards and bonus compensation for each employee in the designated employee population. We did not annualize the compensation of any of our employees hired or on leave during the calendar year. This compensation measure was consistently applied to all such employees.

Once we identified our median employee, we combined all of the elements of such employee's compensation for 2023 in accordance with the reporting requirements used for the Summary Compensation Table plus the value attributable to health benefits provided under our non-discriminatory benefit plans, resulting in the annual total compensation amount reported above. With respect to the annual total compensation of our CEO, we used the amount reported in the Total column in the 2023 Summary Compensation Table plus the value attributable to health benefits provided under our non-discriminatory benefit plans.²

1. We excluded the following number of employees from each of each of the following countries: 2 from Argentina; 3 from Columbia; 4 from Italy; 7 from Greece, 8 from Egypt; 9 from Spain, 10 from Finland; 15 from Brazil; 16 from Portugal; 47 from New Zealand; 56 from China; 61 from Singapore; 69 from Indonesia; 73 from South Africa, 74 from Ireland; 88 from India; 138 from Thailand, and 234 from Japan.
2. As permitted by SEC rules, the amount attributable to these health benefits (\$18,648) is not included in our CEO's total compensation reported above in the 2023 Summary Compensation Table.

PROPOSAL 3: RATIFICATION OF THE APPOINTMENT OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee selected Deloitte & Touche LLP (Deloitte) as our independent registered public accounting firm to conduct an integrated audit of our consolidated financial statements and internal control over financial reporting for the year ending December 31, 2024. The Board seeks an indication from shareholders of their approval or disapproval of the Audit Committee's appointment of Deloitte as the independent registered public accounting firm (auditor) for 2024. The Audit Committee will consider the outcome of our shareholders' vote in connection with the selection of our auditor but is not bound by the vote. If the appointment is not ratified, the Audit Committee will consider whether a different independent auditor should be selected.

Deloitte served as our auditor for 2023. No relationship exists between Deloitte and us other than the usual relationship between auditor and client. Representatives of Deloitte will be present at the Annual Meeting and available to respond to appropriate questions and will have the opportunity to make a statement if such representatives desire to do so.

Pre-Approval of Audit and Non-Audit Services

Under the Audit Committee charter, the Audit Committee is responsible for the pre-approval of all audit and permissible non-audit services to be performed for us by our auditor. The Audit Committee maintains a policy regarding pre-approval of all audit and non-audit services provided by our auditor. Under the policy, the Audit Committee pre-approves on an annual basis certain audit, audit-related, tax and other services to be provided by our auditor. On an ongoing basis, management communicates specific projects and categories of service relating to audit, audit-related, tax and other services for which the advance approval of the Audit Committee is requested. The Audit Committee reviews these requests and advises management if the Audit Committee approves the engagement of the auditor.

The Audit Committee discusses with Deloitte the nature of the services being performed as well as considerations with respect to the independence of Deloitte. On a quarterly basis, management and Deloitte report to the Audit Committee regarding the actual fees incurred for all services provided by the auditor. For 2023, all of the audit, audit-related, and tax services referenced in the table above were pre-approved by the Audit Committee pursuant to the Audit Committee's pre-approval policy.

Deloitte & Touche LLP (Deloitte), Travel + Leisure Co.'s independent registered public accounting firm, is responsible for expressing an opinion on Travel + Leisure Co.'s consolidated financial statements and the effectiveness of Travel + Leisure Co.'s internal control over financial reporting. The Audit Committee reviewed and discussed Travel + Leisure Co.'s 2023 Annual Report on Form 10-K, including the audited consolidated financial statements of Travel + Leisure Co. for the year ended December 31, 2023, with management and Deloitte. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures.

The Audit Committee also discussed with Deloitte matters required to be discussed by applicable standards and rules of the Public Company Accounting Oversight Board (PCAOB) and the SEC. The Audit Committee also received the written disclosures and the letter from Deloitte required by applicable standards and rules of the PCAOB including those required by Auditing Standard No. 1301, *Communications with Audit Committees*, and the SEC regarding Deloitte's communications with the Audit Committee concerning independence, and discussed with Deloitte its independence.

The Audit Committee also considered whether the permissible non-audit services provided by Deloitte to Travel + Leisure Co. are compatible with Deloitte maintaining its independence. The Audit Committee satisfied itself as to the independence of Deloitte. Based on the Audit Committee's review and discussions described above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in Travel + Leisure Co.'s Annual Report on Form 10-K for the year ended December 31, 2023.

PROPOSAL 4: AMENDMENT OF THE CERTIFICATE OF INCORPORATION TO PROVIDE FOR EXCULPATION OF CERTAIN OFFICERS

We are asking our shareholders to vote to approve a proposal to amend our Restated Certificate of Incorporation (as amended, the “Certificate of Incorporation”) to provide for exculpation of certain officers of the Company as permitted by recent amendments to Delaware law (the “Exculpation Amendment”).

As part of its review of our corporate governance standards and practices, the Board concluded that adopting the Exculpation Amendment to provide for exculpation of certain officers of the Company would help improve the Company’s flexibility in response to time-sensitive opportunities and challenges, as well as talent retention among top officers, and on March 13, 2024, the Board unanimously adopted a resolution declaring it advisable to approve the Exculpation Amendment. If approved by the shareholders at the Annual Meeting, the Company would file the Second Amended and Restated Certificate of Incorporation containing the Exculpation Amendment, a copy of which is attached as Appendix E to this Proxy Statement, with the Delaware Secretary of State. The proposed additions to the Second Amended and Restated Certificate of Incorporation are indicated by underlining, and the proposed deletions are indicated by strikeouts.

Effective August 1, 2022, Section 102(b)(7) of the General Corporation Law of the State of Delaware (“DGCL”) was amended to authorize corporations to adopt a provision in their certificate of incorporation to eliminate or limit monetary liability of certain corporate officers for breach of the fiduciary duty of care. Previously, the DGCL allowed only exculpation of directors for breach of the fiduciary duty of care. As amended, Section 102(b)(7) of the DGCL authorizes corporations to provide for exculpation of the following officers: (i) the corporation’s president, chief executive officer, chief operating officer, chief financial officer, chief legal officer, controller, treasurer or chief accounting officer, (ii) “named executive officers” identified in the corporation’s SEC filings, and (iii) other individuals who have agreed to be identified as officers of the corporation.

Section 102(b)(7) of the DGCL, as amended, only permits, and the Exculpation Amendment would only permit, the exculpation of certain officers in connection with direct claims brought by shareholders, including class actions, but would not eliminate officers’ monetary liability for breach of fiduciary duty claims brought by the Company itself or for derivative claims brought by shareholders in the name of the Company. In addition, as is currently the case with directors under the Certificate of Incorporation, the Exculpation Amendment would not limit the liability of officers for any breach of the duty of loyalty to the Company or its shareholders, any acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of the law and any transaction from which the officer derived an improper personal benefit. Article SIXTH of the Certificate of Incorporation currently provides for the exculpation of directors, but does not include a provision that allows for the exculpation of officers.

The Board believes it is important to provide protection from certain liabilities and expenses that may discourage prospective or current officers from accepting or continuing service with the Company. As with directors, officers frequently must make decisions in response to time-sensitive opportunities and challenges, which can create substantial risk of investigations, claims, actions, suits or proceedings seeking to impose liability on the basis of hindsight. This is especially the case in the current litigious environment where shareholder plaintiffs have employed a tactic of bringing certain claims against officers that would otherwise be exculpated if brought against directors to avoid dismissal of such claims. The Exculpation Amendment would align the protections for our officers with those protections currently afforded to our directors.

In addition, the Board believes the Exculpation Amendment would better position the Company to attract top officer candidates. In the absence of this exculpatory protection, qualified officers might be deterred from serving as officers due to exposure to personal liability and the risk that substantial expense will be incurred in defending lawsuits, regardless of merit. Some of our peers have already adopted, and it may be the case that other peers of ours adopt, exculpation clauses that limit the personal liability of officers in their certificates of incorporation, and failing to adopt the Exculpation Amendment could impact our ability to recruit and retain exceptional officer candidates who could conclude that the potential exposure to liabilities, costs of defense and other risks of proceedings exceeds the benefits of serving as an officer of the Company.

The Board also took into account the narrow class and type of claims from which such officers would be exculpated from liability pursuant to Section 102(b)(7) of the DGCL, the limited number of our officers that would be impacted, and the benefits the Board believes would accrue to the Company by providing exculpation in accordance with Section 102(b)(7) of the DGCL, including the ability to further enable our officers to best exercise their business judgment in furtherance of shareholders’ interests. Given these considerations, our Board has determined that it is in the best interests of the Company to adopt the proposed Exculpation Amendment.

The proposed Exculpation Amendment, if it is approved by our shareholders and becomes effective, would be in addition to a provision in Article SIXTH of our Certificate of Incorporation, which, as discussed above, currently provides for the exculpation of directors.

Proposed Amendment

The proposed Exculpation Amendment will amend and restate the Certificate of Incorporation to add a new Article TWELFTH as follows:

TWELFTH: No officer shall be personally liable to the Corporation or any of its shareholders for monetary damages for breach of fiduciary duty as an officer, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL as the same exists or may hereafter be amended. If the DGCL is amended hereafter to authorize the further elimination or limitation of the liability of officers, then the liability of an officer of the Corporation shall be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or modification of this Article TWELFTH shall not adversely affect any right or protection of an officer of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.

The affirmative vote of the holders of a majority of the outstanding common stock entitled to vote thereon is required to approve and adopt the proposed Exculpation Amendment. If this proposal to amend the Certificate of Incorporation is approved and adopted by our shareholders, we will file the Second Amended and Restated Certificate of Incorporation with the Secretary of State of Delaware shortly after the Annual Meeting that includes the above-described proposed amendment. The Board may, at any time prior to effectiveness, abandon the proposed Exculpation Amendment without further action by the shareholders or the Board (even if the requisite shareholder vote is obtained). If the Exculpation Amendment is not approved by shareholders, it will not be implemented and will not be included in the filing (if any) of the Second Amended and Restated Certificate of Incorporation. If neither the Exculpation Amendment nor the Federal Forum Amendment (as defined below) is approved by shareholders, the Company will not file the Second Amended and Restated Certificate of Incorporation and no changes to the Certificate of Incorporation will be implemented or become effective.

Description of Other Immaterial Changes

The proposed Second Amended and Restated Certificate of Incorporation included as Appendix E to this Proxy Statement also reflects certain immaterial changes to streamline and modernize our Certificate of Incorporation. These changes, which do not substantively affect shareholders' rights, include (i) the integration of the prior certificates of amendment to the Certificate of Incorporation, which changed the name of the Company ultimately to Travel + Leisure Co., (ii) an update to the address for the registered office of the Company and (iii) an update to the name of the registered agent of the Company. All changes set forth in the proposed Second Restated Certificate of Incorporation included as Appendix E to this Proxy Statement other than the addition of Article TWELFTH and Article THIRTEENTH are immaterial changes.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE
FOR THE PROPOSAL TO AMEND THE CERTIFICATE OF INCORPORATION
TO PROVIDE FOR THE EXCULPATION OF CERTAIN OFFICERS**

PROPOSAL 5: AMENDMENT OF THE CERTIFICATE OF INCORPORATION TO REQUIRE THAT CLAIMS UNDER THE SECURITIES ACT BE BROUGHT ONLY IN FEDERAL COURT

We are asking our shareholders to vote to approve a proposal to amend our Certificate of Incorporation to include a federal forum provision for claims under the Securities Act of 1933, as amended (the “Securities Act”), which governs offers and sales of securities (such amendment, the “Federal Forum Amendment”). Under the Federal Forum Amendment, unless the Company consents in writing to the selection of an alternate forum, the federal district courts of the United States shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act.

As part of its review of our corporate governance standards and practices, the Board concluded that adopting a federal forum selection clause would help improve the fairness and uniform adjudication of actions arising under the Securities Act and, on March 13, 2024, the Board unanimously adopted a resolution declaring it advisable to approve the Federal Forum Amendment. If approved by the shareholders at the Annual Meeting, the Company would file the Second Amended and Restated Certificate of Incorporation containing the Federal Forum Amendment, a copy of which is attached as Appendix E to this Proxy Statement, with the Delaware Secretary of State. The proposed additions to the Second Amended and Restated Certificate of Incorporation are indicated by underlining, and the proposed deletions are indicated by strikeouts.

The Board believes that the Company and its shareholders would benefit from having certain causes of action arising from the Securities Act resolved in federal courts. Approval of the proposed Federal Forum Amendment would allow for (i) the consolidation of multi-jurisdiction litigation, (ii) the avoidance of state court forum shopping by plaintiffs, (iii) the avoidance of duplicative litigation and the possibility of inconsistent judgments, (iv) efficiencies in managing the procedural aspects of securities litigation and (v) the Company to focus on the underlying substantive rights or remedies, instead of addressing where a claim may be brought, all of which should also reduce the cost to the Company of resolving such matters. In addition, the Board believes that the federal district courts have considerable expertise in matters arising under the Securities Act, which provides greater predictability regarding the outcome of these disputes. Finally, the Board also considered the increasing trend towards adoption of forum selection provisions in response to multi-forum litigation and that the Company would retain the ability to consent to an alternative forum if it wished to do so. Given these considerations, our Board has determined that it is in the best interests of the Company to adopt the proposed Federal Forum Amendment.

The proposed Federal Forum Amendment would regulate only the forum in which our shareholders may assert claims arising under the Securities Act. It would not impair the ability of our shareholders to bring such claims, and it would not affect the type of remedies available if such claims were ultimately successful.

Although we are seeking approval of the proposed Federal Forum Amendment for the reasons cited above, if this proposed amendment is approved and implemented, it could, among other things, discourage claims or limit an investor’s ability to bring a claim in a judicial forum that they find favorable. The proposed Federal Forum Amendment could also require shareholders to incur additional litigation costs in pursuing claims in federal court in accordance with the terms of the proposed Federal Forum Amendment. Nevertheless, the Board believes that the benefits to us and our shareholders outweigh these concerns. The Board is not proposing the Federal Forum Amendment in anticipation of any specific litigation confronting the Company.

In 2020, a decision by the Delaware Supreme Court upheld the facial validity of federal forum provisions under Delaware corporate law, resulting in such provisions becoming more common for companies going public, as well as the addition of such provisions by several public companies to their certificate of incorporation or bylaws. However, not all courts have opined on the validity and enforceability of exclusive federal forum provisions. The Company cannot be certain that all state courts will enforce the terms of the Federal Forum Amendment and transfer any covered proceeding to the appropriate federal district court, and, if that happens, the Company may incur additional costs associated with resolving such matters.

The proposed Federal Forum Amendment, if it is approved by our shareholders and becomes effective, would be in addition to a provision in Article X of our Fourth Amended and Restated By-Laws (the “By-Laws”), which provides that the Court of Chancery of the State of Delaware (or, if the Court of Chancery does not have jurisdiction, any state or federal court in the State of Delaware) shall be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Company, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer, other employee or shareholder of the Company to the Company or the Company’s shareholders, (iii) any action asserting a claim arising pursuant to any provision of the DGCL, the Certificate of Incorporation or the By-Laws (with respect to each, as may be amended from time to time) or (iv) any other action asserting a claim governed by the internal affairs doctrine.

Proposed Amendment

The proposed Federal Forum Amendment will amend and restate the Certificate of Incorporation to add a new Article THIRTEENTH as follows:

THIRTEENTH: Unless the Corporation consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended.

The affirmative vote of the holders of a majority of the outstanding common stock entitled to vote thereon is required to approve and adopt the proposed Federal Forum Amendment. If this proposal to amend the Certificate of Incorporation is approved and adopted by our shareholders, we will file the Second Amended and Restated Certificate of Incorporation with the Secretary of State of Delaware shortly after the Annual Meeting that includes the above-described proposed amendment. The Board may, at any time prior to effectiveness, abandon the proposed Federal Forum Amendment without further action by the shareholders or the Board (even if the requisite shareholder vote is obtained). If the Federal Forum Amendment is not approved by shareholders, it will not be implemented and will not be included in the filing (if any) of the Second Amended and Restated Certificate of Incorporation. If the proposed Federal Forum Amendment, but not the proposed Exculpation Amendment, is approved by shareholders at the Annual Meeting, the Article number of the Federal Forum Amendment will be changed to Article Twelfth prior to filing with the Secretary of State of the State of Delaware and approval of the Federal Forum Amendment by shareholders will include approval of such change. If neither the Federal Forum Amendment nor the Exculpation Amendment is approved by shareholders, the Company will not file the Second Amended and Restated Certificate of Incorporation and no changes to the Certificate of Incorporation will be implemented or become effective.

FAQs ABOUT THE ANNUAL MEETING

When and where will the Annual Meeting be held?

The Annual Meeting will be held on Wednesday, May 15, 2024, at 12:30 p.m. Eastern time. Shareholders of record at the close of business on March 25, 2024 may attend the meeting and vote their shares during the meeting at www.virtualshareholdermeeting.com/TNL2024. Shareholders will have the same opportunity to participate as they would at an in-person meeting, with the ability to vote and submit questions during the meeting in accordance with the rules of conduct posted on the meeting website. For further information on how to attend the meeting, please see below under “How do I attend the meeting?”

What am I being asked to vote on at the meeting?

You are being asked to vote on the following:

- to elect nine Directors for a term expiring at the 2025 annual meeting of shareholders;
- to vote on a non-binding, advisory basis to approve our executive compensation program;
- to vote on a proposal to ratify the appointment of Deloitte & Touche LLP to serve as our independent registered public accounting firm for 2024;
- to vote on a proposed amendment to our Certificate of Incorporation to provide for exculpation of certain officers;
- to vote on a proposed amendment to our Certificate of Incorporation to require that claims under the Securities Act of 1933, as amended, be brought only in federal court; and
- to transact any other business that may be properly brought before the meeting or any adjournment or postponement of the meeting.

We are not aware of any other matters that will be brought before the shareholders for a vote at the annual meeting. If any other matters are properly presented for a vote, the individuals named as proxies will have discretionary authority to the extent permitted by law to vote on such matters according to their best judgment.

Who may vote and how many votes does a shareholder have?

All holders of record of our common stock as of the close of business on March 25, 2024 (record date) are entitled to vote at the meeting. Each shareholder will have one vote for each share of our common stock held as of the close of business on the record date. As of the record date, 71,263,534 shares of our common stock were outstanding. There is no cumulative voting and the holders of our common stock vote together as a single class.

Why did I receive a notice of internet availability of proxy materials?

We use the “e-proxy” rules of the SEC, which allow companies to furnish their proxy materials over the Internet instead of mailing printed copies of the proxy materials to each shareholder. As a result, we are mailing to most of our shareholders a notice about the Internet availability of the proxy materials (the “Notice of Internet Availability”), which contains instructions on how to access this proxy statement, the accompanying Notice of 2024 Annual Meeting of Shareholders, and the 2023 Annual Report on Form 10-K online.

If you received the Notice of Internet Availability by mail, you will not automatically receive a printed copy of the proxy materials in the mail. Instead, the Notice of Internet Availability instructs you on how to access and review all of the important information contained in the proxy materials and how you may submit your proxy. The Notice of Internet Availability also contains information about how shareholders may, if desired, request a printed copy of these proxy materials.

How many votes must be present to hold the meeting?

The holders of a majority of the outstanding shares of our common stock entitled to vote at the meeting, or 35,631,768 shares, must be present or represented by proxy at the meeting in order to constitute the quorum necessary to conduct the meeting. Abstentions and broker non-votes will be counted for the purposes of establishing a quorum at the meeting.

A broker non-vote occurs when a broker or other nominee submits a proxy that states that the broker does not vote for one or more proposals because the broker has not received instructions from the beneficial owner on how to vote on such proposal and does not have discretionary authority to vote in the absence of instructions.

We urge you to vote by proxy even if you plan to attend the meeting so that we will know as soon as possible that a quorum has been achieved.

How do I vote?

Even if you plan to attend the meeting you are encouraged to vote by proxy.

If you are a shareholder of record, also known as a registered shareholder, you may vote in one of the following ways:

- by **telephone** by calling the toll-free number **(800) 690-6903** (have your Notice or proxy card in hand when you call);
- by **Internet** at <http://www.proxyvote.com> (have your Notice or proxy card in hand when you access the website);
- if you received (or requested and received) a printed copy of the proxy materials, by returning the enclosed **proxy card** (signed and dated) in the envelope provided; or
- **at the virtual Annual Meeting** (please see below under “How do I attend the meeting?”).

If your shares are registered in the name of a bank, broker or other nominee, follow the proxy instructions on the form you receive from the bank, broker or other nominee. You may also vote at the Annual Meeting – please see below under “How do I attend the meeting?”

When you vote by proxy your shares will be voted according to your instructions. If you sign your proxy card or vote by Internet or by telephone but do not specify how you want your shares to be voted they will be voted as the Board recommends.

What if I am a participant in the Company's Employee Savings Plan?

For participants in the Company's Employee Savings Plan with shares of our common stock credited to their accounts, voting instructions for the trustees of the plan are also being solicited through this proxy statement. In accordance with the provisions of the plan, the trustees will vote shares of our common stock in accordance with instructions received from the participants to whose accounts the shares are credited. If you do not instruct the plan trustees on how to vote the shares of our common stock credited to your account, the trustees will vote those shares in the same proportion to the shares for which instructions are received.

How does the Board recommend that I vote?

The Board recommends the following votes:

- FOR ALL of the Director nominees.
- FOR the non-binding, advisory resolution to approve our executive compensation program.
- FOR the ratification of the appointment of Deloitte & Touche LLP to serve as our independent registered public accounting firm for 2024.
- FOR the proposal to amend our Certificate of Incorporation to provide for the exculpation of certain officers of the Company;
- FOR the proposal to amend our Certificate of Incorporation to require that claims under the Securities Act of 1933, as amended, be brought only in federal court.

How many votes are required to approve each proposal?

In the election of Directors, the affirmative vote of a plurality of the votes present or represented by proxy and entitled to vote at the meeting is required. Only votes cast “for” a nominee will be counted. Votes “withheld” and broker non-votes in the election of directors will not be counted as cast for such purpose and therefore will have no effect on the outcome of the election. This means the Director nominee for each position receiving the greatest number of votes will be elected and “withheld” votes and broker non-votes will have no effect on the outcome of the vote. However, as further described under “Election of Directors”, under the Board’s Corporate Governance Guidelines any nominee for Director who receives a greater number of votes withheld than votes for election is required to tender his or her resignation for consideration by the Corporate Governance Committee and by the Board.

For each of the proposals to amend the Certificate of Incorporation, the affirmative vote of the holders of a majority of outstanding shares of our common stock entitled to vote at the Annual Meeting will be required for approval. Abstentions and broker non-votes will have the effect of a vote against such proposal.

For each of the other proposals, the affirmative vote of the holders of a majority of the shares represented at the meeting virtually or by proxy and entitled to vote on the proposal will be required for approval. Abstentions will have the effect of a vote against such proposals. Broker non-votes will have no effect on the outcome of such proposal because they are not entitled to vote on the proposal, other than on the vote on the ratification of our auditor, which is considered a routine matter on which brokers are permitted to vote in their discretion.

If your shares are registered in the name of a bank, broker or other financial institution and you do not give your broker or other nominee specific voting instructions for your shares, under rules of the NYSE your record holder has discretion to vote your shares on the ratification of auditor proposal but does not have discretion to vote your shares on any of the other proposals. Your broker, bank or other financial institution will not be permitted to vote on your behalf on the election of Director nominees on the non-binding, advisory vote on executive compensation or on either of the proposals to amend the Certificate of Incorporation, unless you provide specific instructions before the date of the Annual Meeting by completing and returning the voting instruction or proxy card or following the instructions provided to you to vote your shares by telephone or the Internet.

How do I attend the meeting?

The meeting will begin promptly at 12:30 p.m. Eastern time at www.virtualshareholdermeeting.com/TNL2024. Shareholders of record and beneficial holders at the close of business on March 25, 2024 may attend the meeting and vote their shares during the meeting at www.virtualshareholdermeeting.com/TNL2024. Shareholders will have the same opportunities to participate as they would at an in-person meeting with the opportunity to vote and submit questions during the virtual meeting using the directions on the meeting website. Shareholders will need their 16-digit control number to vote or ask questions during the meeting. The control number can be found on the Notice of Internet Availability, proxy card or voting instruction form. Those without a control number may attend as guests of the meeting, but will not have the option to vote their shares or ask questions.

Beneficial shareholders whose shares are registered in the name of a bank, broker or other nominee may need to obtain the information required to be able to participate in, and vote at, the meeting, including their control number, from their bank, broker or other nominee. If a beneficial holder has any questions regarding attendance or voting at the meeting, they should contact their broker, bank or other nominee who holds their shares.

Online access to the meeting will open 15 minutes prior to the start of the meeting to allow time for participants to login and testing of device audio systems. We encourage participants to access the meeting in advance of the designated start time. After logging in, please review the rules of conduct for the meeting posted on the website.

Support will be available 15 minutes prior to, and during, the meeting to assist shareholders with any technical difficulties they may have accessing or hearing the virtual meeting. If participants encounter any difficulty, they should call the support team at the numbers listed on the login screen.

How do I ask questions during the meeting?

Shareholders are encouraged to submit questions during the meeting at www.virtualshareholdermeeting.com/TNL2024. You will need the 16-digit control number found on the Notice, proxy card or voting instruction form to log into the meeting and submit questions. Subject to time constraints, we will answer all relevant and appropriate shareholder questions during the meeting. Questions that are substantially similar may be grouped and answered once to avoid repetition. Shareholder questions related to personal matters, that are not pertinent to Annual Meeting matters, or that contain derogatory references to individuals, use offensive language or are otherwise inappropriate, will not be addressed.

Can I change or revoke my vote?

You may change or revoke your proxy at any time before it is voted at the meeting by submitting a later dated proxy or by entering new instructions by Internet or telephone by 11:59 p.m. Eastern time on Tuesday May 14, 2024, or by giving timely written notice of such change or revocation to the Corporate Secretary or by attending the meeting virtually and voting.

How are proxies solicited?

We retained Georgeson to advise and assist us in soliciting proxies at a cost of \$14,750 plus reasonable expenses. Proxies may also be solicited by our Directors, officers and employees personally, by mail, telephone or other electronic means for no additional compensation. We will pay all costs relating to the solicitation of proxies. We will also reimburse brokers, custodians, nominees and fiduciaries for reasonable expenses in forwarding proxy materials to beneficial owners of our common stock.

How do I make a shareholder proposal for the 2025 meeting?

Shareholders interested in presenting a proposal for inclusion in our proxy statement and proxy relating to our 2025 annual meeting may do so by following the procedures prescribed in Rule 14a-8 under the Securities Exchange Act of 1934, as amended (Exchange Act). To be eligible for inclusion in next year's proxy statement, shareholder proposals must be received by the Corporate Secretary at our principal executive offices no later than the close of business on December 6, 2024.

In general, any shareholder proposal to be considered at next year's annual meeting but not included in the proxy statement must be submitted in accordance with the procedures set forth in our By-Laws. Notice of any such proposal must be submitted in writing to and received by the Corporate Secretary at our principal executive offices not earlier than January 15, 2025 and not later than February 14, 2025. However, if the date of the 2025 annual meeting is not within 30 days before or after May 15, 2025 then a shareholder will be able to submit a proposal for consideration at the annual meeting not later than the close of business on the 10th day following the day on which public disclosure of the date of the annual meeting is made or such notice of the date of such annual meeting was mailed whichever occurs first. Our By-Laws require that such notice be updated as necessary as of specified dates prior to the annual meeting. Any notification to bring any proposal before an annual meeting must comply with the requirements of our By-Laws as to proper form. A shareholder may obtain a copy of our By-Laws on the Investors page of our website at <https://investor.travelandleisureco.com> by clicking on the Governance menu followed by the Governance Documents link, or by writing to our Corporate Secretary at Travel + Leisure Co., 6277 Sea Harbor Drive, Orlando, Florida 32821.

Shareholders may also nominate Directors for election at an annual meeting. To nominate a Director, shareholders must comply with provisions of our By-Laws and applicable law, including the notice requirements under Rule 14a-19. The Corporate Governance Committee will also consider shareholder recommendations for candidates to the Board sent to the Committee c/o the Corporate Secretary. See above under "Director Nomination Process" for information regarding nomination or recommendation of a Director.

What is householding?

We have adopted a procedure approved by the Securities and Exchange Commission called householding. Under this procedure, shareholders of record who have the same address and last name and have not previously requested electronic delivery of proxy materials will receive a single envelope containing the Notices for all shareholders having that address. The Notice for each shareholder will include that shareholder's unique control number needed to vote his or her shares. This procedure will reduce our printing costs and postage fees.

If you do not wish to participate in householding and prefer to receive your Notice in a separate envelope, please contact Broadridge Financial Solutions by calling their toll-free number at (866) 540-7095 or through Broadridge Financial Solutions, Attn.: Householding Department, 51 Mercedes Way, Edgewood, New York, 11717.

For those shareholders who have the same address and last name and who request to receive a printed copy of the proxy materials by mail, we will send only one copy of such materials to each address unless one or more of those shareholders notifies us, in the same manner described above, that they wish to receive a printed copy for each shareholder at that address.

Beneficial shareholders may request information about householding from their banks, brokers or other holders of record.

FORWARD-LOOKING STATEMENTS

This proxy statement contains “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, conveying management’s expectations as to the future based on plans, estimates and projections at the time we make the statements. Forward-looking statements are any statements other than statements of historical fact including statements regarding our expectations, beliefs, hopes, intentions or strategies regarding the future. In some cases forward-looking statements can be identified by the use of words such as “will,” “may,” “expects,” “should,” “believes,” “plans,” “anticipates,” “proposed,” “planned,” “estimates,” “predicts,” “potential,” “continue,” “future” or other words of similar meaning. Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this proxy statement. Factors that might cause such a difference include, but are not limited to, risks associated with: the acquisition of the Travel + Leisure brand and the future prospects and plans for Travel + Leisure Co., including our ability to execute our strategies to grow our cornerstone timeshare and exchange businesses and expand into the broader leisure travel industry through travel clubs; our ability to compete in the highly competitive timeshare and leisure travel industries; uncertainties related to acquisitions, dispositions and other strategic transactions; the health of the travel industry and declines or disruptions caused by adverse economic conditions (including inflation, higher interest rates, and recessionary pressures), terrorism or acts of gun violence, political strife, war (including hostilities in Ukraine and the Middle East), pandemics, and severe weather events and other natural disasters; adverse changes in consumer travel and vacation patterns, consumer preferences and demand for our products; increased or unanticipated operating costs and other inherent business risks; our ability to comply with financial and restrictive covenants under our indebtedness; our ability to access capital and insurance markets on reasonable terms, at a reasonable cost or at all; maintaining the integrity of internal or customer data and protecting our systems from cyber-attacks; the timing and amount of future dividends and share repurchases, and those other factors disclosed as risks under “Risk Factors” in documents we have filed with the SEC, including in Part I, Item 1A of our Annual Report on Form 10-K filed with the SEC on February 21, 2024. We caution readers that any such statements are based on currently available operational, financial and competitive information, and they should not place undue reliance on these forward-looking statements, which reflect management’s opinion only as of the date on which they were made. Except as required by law, we undertake no obligation to review or update these forward-looking statements to reflect events or circumstances as they occur.

Amounts may not calculate due to rounding. The tables above and below reconcile certain non-GAAP financial measures to their closest GAAP measure. The presentation of these adjustments is intended to permit the comparison of particular adjustments as they appear in the income statement in order to assist investors' understanding of the overall impact of such adjustments. In addition to GAAP financial measures, the Company provides Adjusted net income, Adjusted EBITDA, Adjusted EBITDA margin, and Adjusted diluted EPS to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods, by adjusting for certain items which in our view do not necessarily reflect ongoing performance. We also internally use these measures to assess our operating performance, both absolutely and in comparison to other companies, and in evaluating or making selected compensation decisions. These supplemental disclosures are in addition to GAAP reported measures. Non-GAAP measures should not be considered a substitute for, nor superior to, financial results and measures determined or calculated in accordance with GAAP. Our presentation of adjusted measures may not be comparable to similarly-titled measures used by other companies. See Appendix D for the definitions of these non-GAAP measures.

Non-GAAP Measures: Definitions

Adjusted Diluted Earnings per Share: A non-GAAP measure, defined by the Company as Adjusted net income divided by the diluted weighted average number of common shares. Adjusted Diluted Earnings per Share is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods.

Adjusted EBITDA: A non-GAAP measure, defined by the Company as net income from continuing operations before depreciation and amortization, interest expense (excluding consumer financing interest), early extinguishment of debt, interest income (excluding consumer financing revenues) and income taxes, each of which is presented on the Consolidated Statements of Income. Adjusted EBITDA also excludes stock-based compensation costs, separation and restructuring costs, legacy items, transaction costs for acquisitions and divestitures, asset impairments/recoveries, gains and losses on sale/disposition of business, and items that meet the conditions of unusual and/or infrequent. Legacy items include the resolution of and adjustments to certain contingent assets and liabilities related to acquisitions of continuing businesses and dispositions, including the separation of Wyndham Hotels & Resorts, Inc. and Cendant, and the sale of the vacation rentals businesses. We believe that when considered with GAAP measures, Adjusted EBITDA is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods. We also internally use these measures to assess our operating performance, both absolutely and in comparison to other companies, and in evaluating or making selected compensation decisions. Adjusted EBITDA should not be considered in isolation or as a substitute for net income/(loss) or other income statement data prepared in accordance with GAAP and our presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies.

Adjusted EBITDA Margin: A non-GAAP measure, represents Adjusted EBITDA as a percentage of revenue. Adjusted EBITDA Margin is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods.

Adjusted Free Cash Flow: A non-GAAP measure, defined by the Company as net cash provided by operating activities from continuing operations less property and equipment additions (capital expenditures) plus the sum of proceeds and principal payments of non-recourse vacation ownership debt, while also adding back cash paid for transaction costs for acquisitions and divestitures, separation adjustments associated with the spin-off of Wyndham Hotels, and certain adjustments related to COVID-19. TNL believes Adjusted FCF to be a useful operating performance measure to evaluate the ability of its operations to generate cash for uses other than capital expenditures and, after debt service and other obligations, its ability to grow its business through acquisitions and equity investments, as well as its ability to return cash to shareholders through dividends and share repurchases. A limitation of using Adjusted free cash flow versus the GAAP measure of net cash provided by operating activities as a means for evaluating TNL is that Adjusted free cash flow does not represent the total cash movement for the period as detailed in the consolidated statement of cash flows.

Adjusted Net Income: A non-GAAP measure, defined by the Company as net income from continuing operations adjusted to exclude separation and restructuring costs, legacy items, transaction costs for acquisitions and divestitures, amortization of acquisition-related assets, debt modification costs, impairments, gains and losses on sale/disposition of business, and items that meet the conditions of unusual and/or infrequent and the tax effect of such adjustments. Legacy items include the resolution of and adjustments to certain contingent assets and liabilities related to acquisitions of continuing businesses and dispositions, including the separation of Wyndham Hotels and Cendant, and the sale of the vacation rentals businesses. Adjusted Net Income is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods.

Free Cash Flow (FCF): A non-GAAP measure, defined by TNL as net cash provided by operating activities from continuing operations less property and equipment additions (capital expenditures) plus the sum of proceeds and principal payments of non-recourse vacation ownership debt. TNL believes FCF to be a useful operating performance measure to evaluate the ability of its operations to generate cash for uses other than capital expenditures and, after debt service and other obligations, its ability to grow its business through acquisitions and equity investments, as well as its ability to return cash to shareholders through dividends and share repurchases. A limitation of using FCF versus the GAAP measure of net cash provided by operating activities as a means for evaluating TNL is that FCF does not represent the total cash movement for the period as detailed in the consolidated statement of cash flows.

Any director appointed in accordance with the preceding sentence shall hold office (a) if appointed prior to the 2015 annual meeting of stockholders, for a term that shall coincide with the remaining term of that class in which the new directorship was created or vacancy exists or (b) if appointed at or following the 2015 annual meeting of stockholders, for a term expiring at the next annual meeting of stockholders, and in each case shall serve until such director's successor shall have been elected and shall qualify, subject, however, to prior death, resignation, retirement, disqualification or removal from office. Subject to the rights, if any, of the holders of shares of Preferred Stock then outstanding, (x) any or all of the directors of the Corporation then serving in a class that expires at the third annual meeting of stockholders following the election of such class may be removed from office at any

time only for cause and (y) all other directors may be removed from office at any time with or without cause, provided that removal pursuant to clause (x) or (y) shall require the affirmative vote of the holders of at least eighty percent (80%) of the voting power of the Corporation's then outstanding capital stock entitled to vote thereon. Notwithstanding the foregoing in this Article FIFTH, whenever the holders of any one or more classes or series of Preferred Stock issued by the Corporation shall have the right, voting separately by class or series, to elect directors at an annual or special meeting of stockholders, the election, term of office, filling of vacancies and other features of such directorships shall be governed by the terms of the resolution or resolutions adopted by the Board of Directors providing for the issuance of such class or series, and such directors so elected shall not be divided into classes pursuant to this Article FIFTH unless expressly provided by such terms.

(6) In addition to the powers and authority herein before or by statute expressly conferred upon them, the directors are hereby empowered to exercise all such powers and do all such acts and things as may be exercised or done by the Corporation, subject, nevertheless, to the provisions of the DGCL, this Certificate of Incorporation, and any By-Laws adopted by the stockholders; provided, however, that no By-Laws hereafter adopted by the stockholders shall invalidate any prior act of the directors which would have been valid if such By-Laws had not been adopted.

SIXTH: No director shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL as the same exists or may hereafter be amended. If the DGCL is amended hereafter to authorize the further elimination or limitation of the liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or modification of this Article SIXTH shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.

SEVENTH: The Corporation shall indemnify its directors and officers to the fullest extent authorized or permitted by law, as now or hereafter in effect, and such right to indemnification shall continue as to a person who has ceased to be a director or officer of the Corporation and shall inure to the benefit of his or her heirs, executors and personal and legal representatives; provided, however, that, except for proceedings to enforce rights to indemnification, the Corporation shall not be obligated to indemnify any director or officer (or his or her heirs, executors or personal or legal representatives) in connection with a proceeding (or part thereof) initiated by such person unless such proceeding (or part thereof) was authorized or consented to by the Board of Directors. The right to indemnification conferred by this Article SEVENTH shall include the right to be paid by the Corporation the expenses incurred in defending or otherwise participating in any proceeding in advance of its final disposition. The Corporation may, to the extent authorized from time to time by the Board of Directors, provide rights to indemnification and to the advancement of expenses to employees and agents of the Corporation similar to those conferred in this Article SEVENTH to directors and officers of the Corporation. The rights to indemnification and to the advancement of expenses conferred in this Article SEVENTH shall not be exclusive of any other right which any person may have or hereafter acquire under this Certificate of Incorporation, the By-Laws of the Corporation, any statute, agreement, vote of stockholders or disinterested directors or otherwise. Any repeal or modification of this Article SEVENTH shall not adversely affect any rights to indemnification and to the advancement of expenses of a director or officer of the Corporation existing at the time of such repeal or modification with respect to any acts or omissions occurring prior to such repeal or modification.

EIGHTH: Any action required or permitted to be taken by the stockholders of the Corporation must be effected at a duly called annual or special meeting of stockholders of the Corporation, and the ability of the stockholders to consent in writing to the taking of any action is hereby specifically denied. Unless otherwise required by law or the terms of the resolution or resolutions adopted by the Board of Directors providing for the issuance of a class or series of Preferred Stock, special meetings of stockholders, for any purpose or purposes, may be called by either the (1) Chairman of the Board of Directors, if there be one, or (2) the Chief Executive Officer, and shall be called by the Chief Executive Officer at the request in writing made pursuant to a resolution of (a) a majority of the members of the Board of Directors or (b) a committee of the Board of Directors that has been duly designated by the Board of Directors and whose powers and authority include the power to call such meetings. Such request shall state the purpose or purposes of the proposed meeting. The ability of the stockholders to call a special meeting of stockholders is hereby specifically denied. At a special meeting of stockholders, only such business shall be conducted as shall be specified in the notice of meeting (or any supplement thereto).

NINTH: Meetings of stockholders may be held within or without the State of Delaware, as the By-Laws may provide. The books of the Corporation may be kept (subject to any provision contained in the DGCL) outside the State of Delaware at such place or places as may be designated from time to time by the Board of Directors or in the By-Laws of the Corporation.

TENTH: In furtherance and not in limitation of the powers conferred upon it by the laws of the State of Delaware, the Board of Directors shall have the power to adopt, amend, alter or repeal the Corporation's By-Laws. The affirmative vote of at least a majority of the entire Board of Directors shall be required to adopt, amend, alter or repeal the Corporation's By-Laws. The Corporation's By-Laws also may be adopted, amended, altered or repealed by the affirmative vote of the holders of at least eighty percent (80%) of the voting power of the shares entitled to vote generally in the election of directors.

ELEVENTH: The Corporation reserves the right to amend, alter, change or repeal any provision contained in this Certificate of Incorporation in the manner now or hereafter prescribed in this Certificate of Incorporation, the Corporation's By-Laws or the DGCL, and all rights herein conferred upon stockholders are granted subject to such reservation; provided, however, that, notwithstanding any other provision of this Certificate of Incorporation (and in addition to any other vote that may be required by law), the affirmative vote of the holders of at least eighty percent (80%) of the voting power of the shares entitled to vote generally in the election of directors shall be required to amend, alter, change or repeal, or to adopt any provision as part of this Certificate of Incorporation inconsistent with the purpose and intent of Articles FIFTH, SIXTH, SEVENTH, EIGHTH and TENTH of this Certificate of Incorporation or this Article ELEVENTH.

TWELFTH: No officer shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as an officer, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL as the same exists or may hereafter be amended. If the DGCL is amended hereafter to authorize the further elimination or limitation of the liability of officers, then the liability of an officer of the Corporation shall be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or modification of this Article TWELFTH shall not adversely affect any right or protection of an officer of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.

THIRTEENTH: Unless the Corporation consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended.

IN WITNESS WHEREOF, the Corporation has caused this Second Amended and Restated Certificate of Incorporation to be executed on its behalf by its duly authorized officer on this ~~10th~~[●]th day of ~~May~~[●], 2024.
